EXTREME MAKEOVER

SCHOOL EDITION

6 STUDENT LIFE

Sophomore. Lucas McMillan says "when I'm out of school, I like to play basketball and go to Neil Kamp's grandma's house."

26 PEOPLE

Victoria Moser comments that she enjoys going to NHS because "a lot of my friends go here so I have time to hang out with them."

28 SENIORS

What I will miss the most about NHS will be "the underclassmen that I have gotten to know over the past 3 years," said Nicole Kovach.

52 JUNIORS

Heather Deem comments that she is "looking forward to being a senior next year."

56 SOPHOMORES

"I learned (from my freshman year) that you must manage your time wisely in order to succeed in high school," said Rachel Karsten.

60 FRESHMEN

"Student's (in high school) get a lot more freedom to walk the halls, stay after school, and become more independent," said Emily Rosser.

66 FACULTY

"The most enjoyable aspects of working at NHS are the great staff and students around me," said Ms.Harman.

68 ACADEMICS

Mr.Price thinks about subjects such as will his favorite football team do well this season and getting his hair cut.

88 EXTRACURRICULAR

"The fundraiser was a lot of fun, and we all got to work together and got to know each other," said Danielle Brenneman of the volleyball team.

124 COMMUNITY

"They're the best!...There is always room for improvement, but for those who support us-keep up the good work!" comments Coach Carr on Husky football fans.

Donna Carr

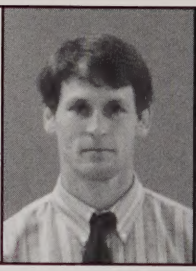
12/25/1946-8/21/2004

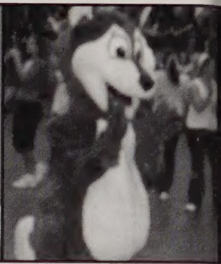
The 2005 Northstar yearbook is dedicated in memory of Mrs. Donna Carr. She will be greatly missed by the students and staff of Northern High School.

The angel tree above was decorated at Christmas time in memory of Mrs.Donna Carr. The staff donated the angels for the tree, and it was displayed in Mrs.Richardson's room.

Learning and Growing Mentally,
Physically and Emotionally

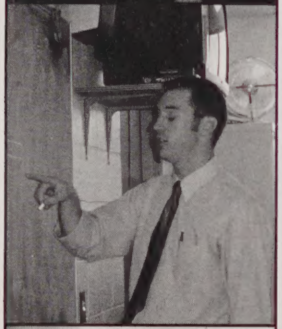
Transformations

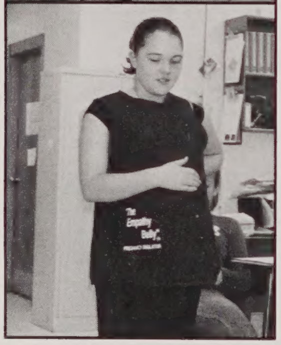




By Jackie Rodeheaver

When the word makeover is said, what's the first thing that comes to mind? Physical change? Extreme Makeover the show? A makeover could mean many things. For example, the school building received a true and amazing physical makeover.But perhaps the appearance of the school wasn't the only thing that changed. Perhaps the renovation changed students' and staff members' attitudes about the school and school work. From the makeover a student endures when entering the high school to that endured by a graduating senior, makeovers come in many different styles. What seems like the simplest change to you, could mean a whole new life to another!





New Images

1. Nick Maxim gets into character as he plays the part of the "Mirror on the Wall," acting out Snow White during French class. 2. Mr.Berger adapts to his surroundings as a new teacher at school. "I chose to teach at NHS because I used to go here, and I think it is a great school," said Mr. Berger. 3. Elizabeth Cummings uses the empathy belly in Child Care while taking part in a temporary transformation with a life-long lesson.

HITTIN' THE BOOKS
Freshman Abby Sherrard works diligently to complete her class work. Abby said high school is different from middle school because "the people are older, and you can play sports for the school."

How have you made changes to your life in high school?

"I am now more reliable, responsible, independent and intelligent," said Nicole Kovach, senior.

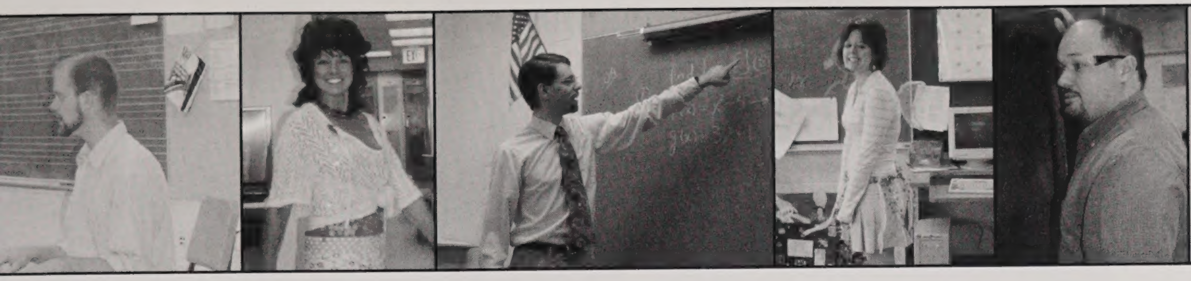
"I'm not as shy as I used to be, and I've become more outgoing over the years," says senior, Sonya Broadwater.

"I have become more busy now than I was in middle school..." says Chris Root, junior.

"I am busier now that I have band and work, along with all honors classes," says sophomore Andrea Maust.

O HAIL THE KING
Corey Carr celebrates as the Mardi Gras King. He became King when "I found the bean in the King Cake," explained Corey. Corey's transformation lasted only a day, though.

A NEW LOOK
Kayla Kipp shows off her new makeover during Girls Varsity's initiation week. "My favorite aspect of wearing the prom dress was being able to wear it and everybody laugh," said Kayla.

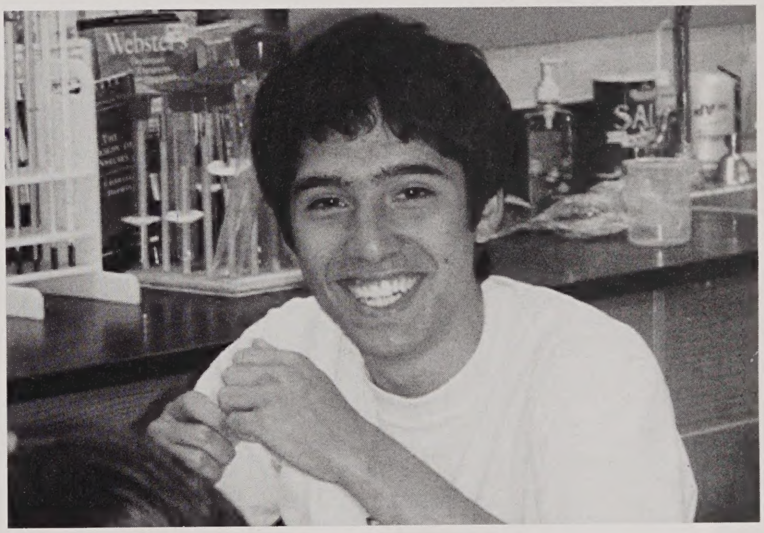


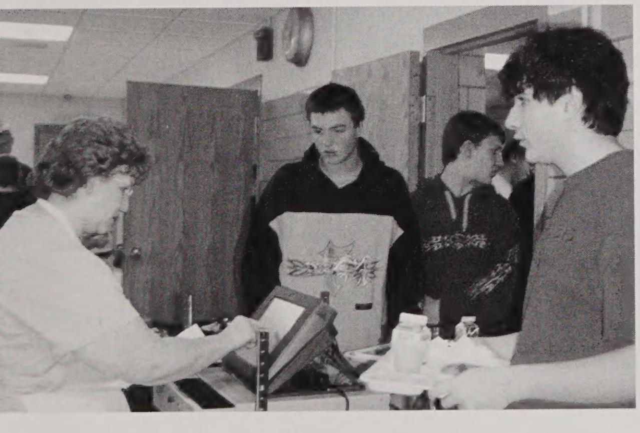
Pictured from left to right are new teachers and students who've learned the meaning of change. They include Mr. Willaman, the husky mascot, Mr. Kenyon, Lakin Weimer, Mr. Keel, Carly Chase and Mr. Beitzel.

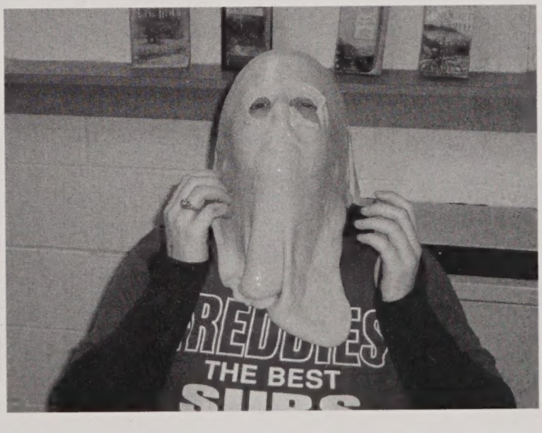
BONJOUR! BIENVENUE. ÇA V

BARBIE GIRL?
Mr. Nicklin sings to 'Barbie Girl' after losing his bet with Dan Miller over the Eagles-Vikings game. "The most embarrassing part was the 'accessories' that Taleena Sines brought in that I had to wear," said Mr. Nicklin.

"HOME MAKEOVER"
Gonzalo Valaquez-Diaz, an exchange student from Chile, has been experiencing a true makeover. "The routine here is a lot more intense..." said Gonzalo.







MASKED MARVEL
Suzette Ketner tries out a new look using her chemistry project as a mask. "I felt dumb, but at the same time it was really funny," explained Suzette.

PIN NUMBER PLEASE?
David Vagnetti and Zac Austin experience the new pin number system used in the cafeteria. Zac says the hardest part of the pin number system is "to remember your number." The pin number system is a technology makeover.

A New Look

For a Fresh Beginning

Looking past the men in hardhats, the heavy machinary, chopped up sidewalks and loud noises, you could see the silhouette of a building.That building was Northern High receiving a much needed makeover.

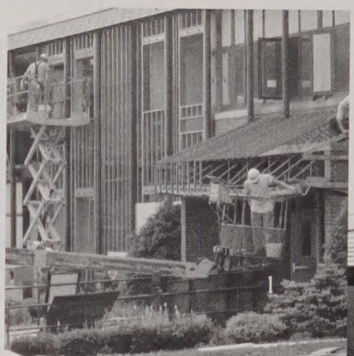
In June 2004, Carl Belt Inc. began tearing apart the school, one section at a time.Their goal?To replace all exterior walls,install new ventilators,and refurbish the gymnasium entrance.

A favorite to many of the teachers here are the new, twice as large windows."I love to see the outside.It makes me feel more connected to nature,"commented Ms.Zollner.

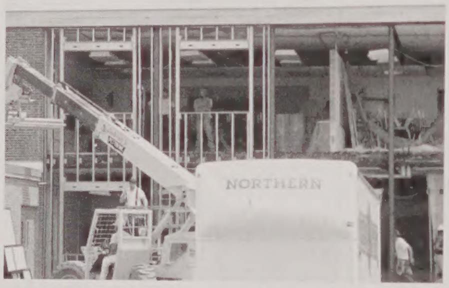
Though the $2.5 million dollar renovation was a wonderful change, there were many aggravating times for teachers and students throughout the process.Mrs.Stough comments that the most aggrevating thing was "no locker room or P.E.office at the beginning of school.It really affected our girls' sports teams."

Looking back to the "before" picture of the school,remembering the leaky walls and cold winters,the aggrevation and doubts, students and faculty alike agree that the renovation was well worth it. The "after" is picture perfect.

By: Jackie Rodeheaver

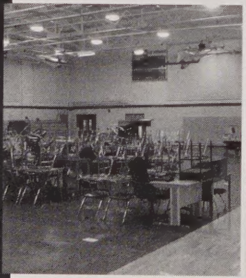


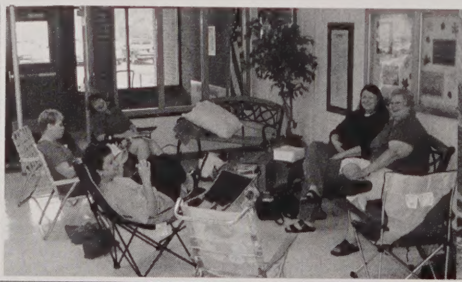
PIECE BY PIECE
Each part of the renovation process was important.The project couldn't be completed without each piece in it's correct spot working to create the finished product.



BRINGIN' DOWN THE SCHOOL!
Replacing the leaky exterior walls was one of the biggest projects of the school's renovation.

OPEN CLASSROOM LEARNING
The renovation affected many teachers and their students.Some teachers had to leave their rooms a month before school was even out.





The teachers made numerous alterations during the process of renovation.

2

ALMOST COMPLETE The new gymnasium was a positive highlight to the renovation. There is now more room in the lobby, and the girls' locker room was also refurbished.

WELCOME BACK! Students and staff came back this fall to a new and improved school.Both agree that the improvements were much needed and all the frustration was well worth the wait.

NORTHERN GARRETT
HIGH SCHOOL

Caution: Hard Hat Area

1.BARE BONES Construction workers work diligently to keep on schedule. According to Mr.Reichenbecher,the crew was able to stay on task all summer and complete the project in time for the new school year.

2.STRATEGIC PLANNING Much planning went into the renovation of the school.Planning started back in the spring of 2003 when the student council voiced their conerns of student health,due to the leaky walls, to the Board of Ed.

3.FALLING ROCKS The new gymnasium was a major highlight to the renovation.Tearing up the old entrance needed to be accomplished before the new one could be constructed.

4.JUST THE BEGINNING taking down the outside panels of the school was just the first step in the renovation. Staff and students no longer have to worry about water in classrooms when it rains.

4

The renovation changed multiple parts of Northern High School.

DO-RE-MI-FA-SO-LA-TI-DO
It can be very nerve-wrecking to be in the talent show. Many people are afraid of being embarassed in front of a crowd, but not Tasha Alt. She says, "I love my friends, and they love me for who I am- not how I sing."

By day a student, By night a...

Every day students wake up in the morning and get ready for school; however, when school is over they transform into different people, whether it be an athlete, an employee or a volunteer. The athletes put on their jerseys and get pumped up for their game; the employees change into their work uniforms, and the socialites dress up in their formal wear for a dance.

There are many different reasons why students participate in activities after school. Mike Resh said he is on the track team for "the pleasure of running." Students go to dances to have fun with their friends. The students who are employed after school work to make money for several different reasons, such as college. Lakin Weimer said she works for "extra spending money that [her] parents won't give [her]." Students lives are not just about who they are at school, but also who they are when school is over.

By Ashley Rounds

STOP, DROP & ROLL
Pictured left is Nicole Bender in her firefighter gear. Nicki says that she enjoys volunteering because "it is not only a lot of fun but also a good way to learn and help in the community. Being a firefighter is also exciting and challenging."

Behind the Scenes of Student Life

"TAKE ME OUT TO THE BALLGAME"
A jersey, team members, equipment and a coach are all part of being on a team. A team's jersey is designed for the sport. Helaina says she likes the softball team's jerseys "because they are cool when it is hot outside."

HAND CHECK
Scott Bass thinks that the best thing about riding the bus is "free tansportation and the worst is (people) who won't stop talking." Riding a bus from school may be long and exhausting; however, it can provide time for fun with friends.

Amanda Beitzel 9

Amanda says what she enjoys most about going to a dance is "being able to do whatever you want on the dance floor and having fun."

Elijah Lais 9

Elijah says the hardest part about participating in an after-school acvity is "probably being tired all the time."

ALWAYS LATE BUT WORTH THE WAIT
Making sure every hair is in place and everything is perfect can take quite a while when preparing for a big event. When getting ready for a formal dance, Caitlin Carr says, "For Homecoming, it usually takes a few hours and for smaller dances, only one or two hours."

Kara Bowser 11

Kara says, "Sometimes I would rather just be comfortable instead of having to get dressed up (for church), but it's not that bad."

On Display

School Spirit

A daily expression of individuality and pride

Give me an "N". Give me an "H". Give me an "S". We've got spirit. Yes, we do. We've got spirit how about you? Spirit week and homecoming are two of the most anticipated events in the year. From crazy clothes and hairdos to long flowing gowns,and poster contests, students show their amazing spirit in humorous ways.

Most students enjoy spirit week because it is a time when students get to act crazy. According to Amanda Friend, the best part about spirit week "is being able to step away from everyday activities and clothes and just have fun and be weird on Wacky Day with things you would never normally wear."

The pep rally was unique, as it occured on half a day. Students also enjoy it because they get to spend that time in the gym watching and participating in the pep rally. Tiffany Doerr says "I think the best thing about the pep rally is seeing how much school spirit we have, but usually it's not much."

While some students enjoy the pep rally, certain students would prefer the homecoming dance. Bridgette Welch stated that "everyone gets to have fun dancing," at the homecoming dance. She says "the dance is the best part of spirit week."

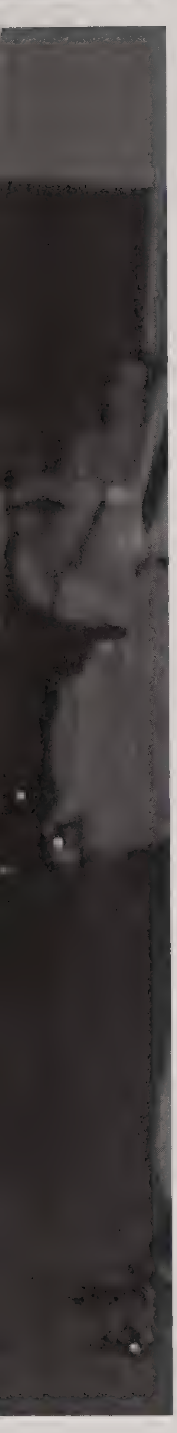
Spirit week and Homecoming are a chance for those who do have school spirit to prove that they have it. According to Angela LaMastus "Camoflage day" was the best part about spirit week, "because it allows some of us be ourselves."

By Jennifer LaMastus

ALL WACKED OUT
Caitlin Carr and Shayla Rodeheaver pose for a picture on Wacky Day. Shayla chose to dress up for Wacky Day because "it was spirit week and I wanted to show school spirit by dressing up." Wacky Day was one of the many ways students can show their school spirit.

PLAYING WITH THE BAND
Brooks DuBose plays his instrument during the pep rally. The best part about the pep rally was "playing with the band because I like the music." says Brooks

KING AND QUEEN
Chloe Bauermaster and Darrick Lowdermilk enjoy their dance as King and Queen. "I was very suprised because I wasn't expecting them to call out my name after they announced the Homecoming King Even though they called out my escort's name, it still didn't sink in that I was queen," says Chloe



What did you enjoy most about Homecoming?

"I enjoyed Homecoming because it was a blast. Everyone had fun together."

Keri Bachtel 11

"The part that I enjoyed most about Homecoming was the whole dance in general because I was able to joke around and have a good time with my friends."

Ashley Birkby 10

"I enjoyed Homecoming because I had a good time with my friends."

Kasondra Broadwater 09

A MOMENT OF SHOCK
Andy Bachtel and Jayme Miller pose for pictures after being crowned prince and princess. "I liked being the center of attention at the football [game] and the dance," states Andy

LETS GO HUSKIES
Janine Beachy cheers at the Homecoming football game against Pendleton County. "I enjoy cheering at Homecoming because of all of the fans, and it inspires our team," says Janine.

PIE EATING TIME
Mr. Paul Edwards receives a pie in the face during the pep rally. The best part about participating in the pep rally events was "getting a laugh out of the students. I like for people to have a good time, and I think they did," says Mr. Edwards.

TWIN DAY
Robert Stark carries his twin with him on Twin Day. The best part about Twin Day was "the attention I got," said Robert. Robert is used to the attention he gets from Twin Day because he has a paternal twin.

JUST KEEP ON PLAYING
Wet and cold,Northern band members march down the street. Andrea Maust described Autumn Glory as "wet. We marched in the parade and it was raining the whole time." Even though it rained, band members still had a good time.

THE ROYAL COURT
The Autumn Glory court continues to wave and smile as they ride through the parade with their umbrellas. Princess Blakely Glotfelty said "This was the coldest Autumn Glory I can remember, but it was still fun."

Autumn Glory ROYAL COURT

SCHOOL PRIDE
Senior guard member Margaret Mastej whips her flag against the wind. She said "My favorite part was getting back on the bus after doing the parade through the snow,rain,sleet,and hail."

STEP AFTER STEP
Baylee Martin- Selders continues to play as the rain and wind beat against her. She said "We practice marching and playing" when preparing for the parade.

What was the most memorable part of this year's Autumn Glory?

"Right when we began the parade, it started pouring down rain,and even snowed, but right when we finished the parade, everything stopped. It was a horrible day."

Scott Bass, 10

"Being with my friends and just hanging out was really cool."

Adam Logan, 9

"The fact that it was freezing cold,it poured down the rain during the parade, and it snowed at our competition."

Keena Yommer, 11

RAIN DROPS FALLIN' ON THEIR HEAD
King Eric Johnson and Queen Erin Rhodes ride through the parade with nothing but smiles on their faces. Eric said being crowned King was"fabulous."

A MAGICAL MOMENT
Eric Johnson and Blakely Glotfelty share a dance at the Autumn Glory Banquet. Princess, Blakely Glotfelty said "It was really fun to get to be involved in Autumn Glory,but the rain really made the weekend a lot less fun."

Rain Fell

Spirits Soared

Mother Nature brought heavy rains, wind, and even snow to Garrett County on Autumn Glory weekend.

Autumn Glory is a time when people come to Oakland to celebrate and enjoy the fall festivites; however, this year Mother Nature did not cooperate according to past Autumn Glory splendor. Heavy rains, blustering winds, and even snow flurries hit Garrett County on this annual event. Rain or shine, the activities still went on as planned.

The Autumn Glory court led the parade on its way. Senior Eric Johnson was this year's king and, senior, Blakely Glotfelty was this year's princess. King Johnson said, "Riding through the parade in a freezing torrential downpoar of precipitation" was his favorite part of this year's Autumn Glory celebration.

Marching behind the court were wet and cold band members who kept on playing no matter what the weather decided to do. Sophomore Hannah Hare said, " I would describe it (Autumn Glory) as cold. It was raining and very windy. Our uniforms got soaking wet, and it was really cold!" Besides the weather, people still were happy and thought positively and enjoyed themselves throughout the day. "I love seeing all the people," said Baylee Martin- Selders. Even though the weather was a big disappointment for Autmun Glory events, people's spirits were still high, and they still had a lot of fun.

By Andrea Warnick

KEEPIN' THE BEAT
Sophomore Chris Miller continues to keep the beat as the band marches down the street. Chris described Autumn Glory as "wet because it rained the whole time."

Tackling Boredom
Wacky Weekends

Relax, Recline, Unwind

Beat the hustle and bustle! Enough long lectures and note taking, no teachers on your case, no hall passes, just fun ; it's the weekend!

Whether it's the pool hall or the shopping mall, weekends and hangouts provide freedom from school and allow students to express themselves in ways school doesn't permit. Places as simple as the Grantsville Park provide outlets for students. Whether in or out of Garrett County, Northern teens always find a way to "tackle boredom." Staying out late, chilling with friends, and leaving the hassles behind, make the weekends worth the wait. "It's fun talking with my friends and watching movies with them," says Gerald Rizer.

Not only do hangouts provide fun for teens, but in many cases they are also beneficial and provide a sense of security for parents. "I enjoy my hangout because I have a lot of fun, and it keeps me away from drugs," said Jason Warnick. Many hangouts are away from home; however, home for some is the ultimate place to be. "I divide my time between my bedroom and the basement...my friend Jen comes over, and we watch movies, play video games or get on the internet," said Jennifer Beitzel. Though the place may make the mood, the people are the life of the party.

By Bethani Gillum

GOT GAME?
Casey Kamp and Dan Miller play a one-on-one game of basketball at the Grantsville Park. "Casey and I are good friends, and we are both competitive, so we always play against each other," said Dan Miller.

AIM:THE NAME OF THE GAME!
Drawing back her pool stick, Crystal Humberson sets up her next shot. The hardest part in pool is " getting the last ball in the hole," said Crystal.

FIELD OF FUN
Janine Beachy, Shayla Rodeheaver, Megan Margroff, and Stephanie Law gather at the local corn maze for a fun filled evening with friends.

Above All: FUN

I use the weekends to "catch up on homework and hangout with my family and friends."

Lacie Bittinger 11

I enjoy my hangouts "because my friends are there with me."

Cody Kamp 11

"I hang out in my room and read because I enjoy being alone."

Jessie Wilt 9

WINGING IT
Tiffany Murdock and Rachel Schmidt enjoy wings at Smiley's Pizzeria. I enjoy hanging out at Smiley's "because I get to see all of my friends, have wings, and see all the hot guys," said Rachel.

SIDE POCKET SHOOTER
Brandon Garlitz aligns his next shot as he draws back his pool stick. I enjoy my weekends because "...I'm havin' fun and relaxin'," said Brandon.

ROUND TRIP
Lacey Cordes entertains herself and her friends,Danielle Fousek and Krista Burns, on the merry go round at the Grantsville Park. Lacey chose to hangout at the Grantsville Park because "it's a place where friends can go and have fun."

YOU'RE IT!
Maria Perfetti engages in a game of lazer tag while hanging out at Smiley's with her friends. "We just had a lot of time to waste," said Maria Perfetti. Smiley's is a favorite hangout because it offers a variety of food and fun.

JUST BEING TOGETHER
Danielle Fousek and Brock Glotfelty enjoy being together Danielle says "I will always remember when Krista, Casey, Brock, and I ended up going to Pizza Hut for dinner while everyone ended up going to UNO'S! It was a blast!"

MAKING MEMORIES
Brian Schlosnagle, Ashley Rounds, Timothy Glotfelty, Andrea Miller, Laci Bittinger, Brittany Herring, and Chris Fickes enjoy a dinner before the dance. Laci Bittinger says, "... dances are experiences that can only be enjoyed with your friends."

A NEW FRIENDSHIP
Johanna Winter enjoys the night posing with her friend. She will remember "going to snowball with Brendan and having fun." Friendships have a lasting effect.

JUST CHILLIN'
Keena and her friend Charlie Stemac take a rest from dancing. Keena says, " I enjoyed just hanging out and having fun with my friends and seeing everyone all dressed up."

What will you remember about Snowball?

"I will remember only paying a dollar to get in and dancing with all the ladies."

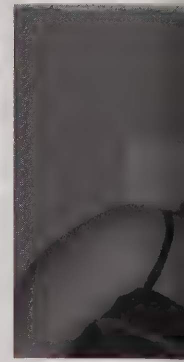
Taylor Jones 11

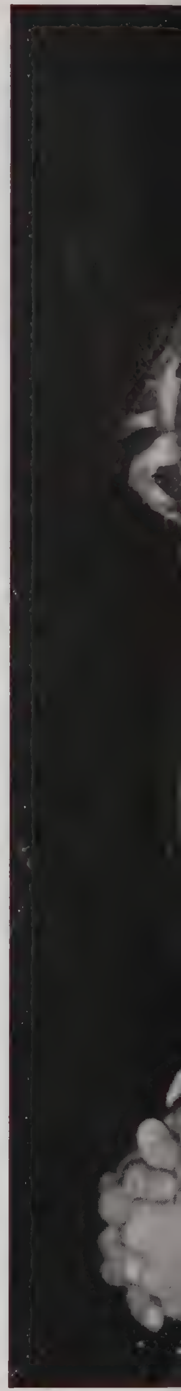
"The fun I had with my friends, and that for a change I didn't care what people thought. I just relaxed with all of my friends."

Kara Bowser 11

"I will always remember the new couples made at Snowball and dancing with all of my friends."

Alyson Mckenzie 10





SHARING THE NIGHT
Kara Bowser and Travis Kamp relax after their busy night of dancing. Travis enjoyed "being with (his) date". One of the most enjoyable aspects of attending a dance is spending time creating memories with the important people in your life.

THE CHOSEN ONE
The senior queen, Jayme Miller, makes the best of her night. She says, "I was happy (being snowball queen) because I had never been queen before, it was exciting." This was Jayme's first time wearing the crown.

Making Memories Magical

Many people attended the snowball dance as a couple or with a group of friends.

As the music played, couples danced the night away. Many seniors enjoyed spending their last snowball memory with their other half. Casey Kamp says, "...I had a great time at dinner with my date. Having a date who likes to dance is really important. I had a great time." Although, couples occupied the dance floor, there were also solo dancers. Nicole Kovach states, "I really enjoyed being able to dance with everyone without upseting a date." Enjoying time with friends seems to be a major priority among high school students.

The annual snowball dance could not have been a success without the traditional sponsoring from the letterman's club. Many students came to support the royal court and just have fun!

The suspense all led up to the moment the court was announced. Walking away with the senior crown was Jayme Miller. Next, among the chosen ladies was junior, Amy Shaffer. Sophomore, Krista Burns, got to have her victory as she was pronounced. Britney Stein, making her mark as a freshman, held the place of freshman princess.

Snowball holds many memories that are remembered throughout student's lives. Ben Margroff says, "I won't forget anything I had a great time." What better way to remember a magical night than spending it with the people you love?

By Alyson McKenzie

A NIGHT TO REMEMBER
Casey Kamp and Krista Burns return after receiving the crown and continue their night together.Krista says, "I think I will always remember that night. Casey was a great and sweet date, plus dancing and singing together was just hilarious and fun..."

A Chance to Shine

Defining Talent

The Tradition of a Talent Show Allows Each Student His Chance to Shine

Talent is often hidden in the everyday school environment. From the quietest person to the most popular, the annual talent show is a way for everyone to gain their "fifteen minutes of fame."

Each participant in this annual tradition has a love for the stage and the courage to get up in front of the whole student body. "I did it last year with Nicki; and we decided to do it again," says Kara Bowser. Practicing every day and trying to make their act the best, Kara and Nicole Bender participate in the talent show for their second year.

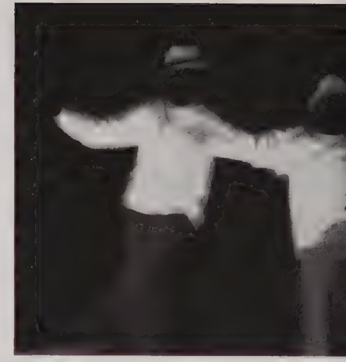
While the talent show is fun for everyone, don't doubt for a minute that stage fright isn't involved. "I always get stage fright. Even if I sing in front of two people, my heart will start pounding, and I start to shake badly," says Amanda Anderson, a first time participant in the talent show.

The rush of the talent show lasts even after it's done. Contestants walk through the halls and still receive compliments. "... it was great listening to different types of music along with different people dancing to it," says Abbey Rugola, a freshman this year. Not always judged but always fun, the talent show includes everything from stage fright to the reaction from the crowd and the amazing rush afterwards.

By Jackie Smetzer

THIRD TIME IS A CHARM
"I love being up on stage and being the center of attention," says Jennifer Bietzel. Jennifer performs for her third year in the talent show and plans on performing again next year.

BREAK A LEG, GIRLS
Taleena Sines, Sarah Shawley, and Danielle Opel do a one of a kind black light dance. "After the show I wanted to go back on because it was so fun," says Danielle, a sophomore.



ONE LAST TIME
After performing for four years in the Northern High School's annual talent show, Tyler Brenneman performs for his last time as a senior. "If you play music, play what you like and not what people want to hear," he says.

What is your advice for participants next year?

"Do your best and have fun."

AMANDA ANDERSON 12

"Work hard and pick something great to be remembered by."

BRUCE DIRDEN 12

"Don't be nervous and just have fun!"

KATIE GRIMM 12

LISTEN TO THE MUSIC
Slowing the pace down between bands, Kara Bowser and Nicole Bender demonstrate their ability to harmonize. "I sang last year in the talent show and enjoyed it," Nicole says.

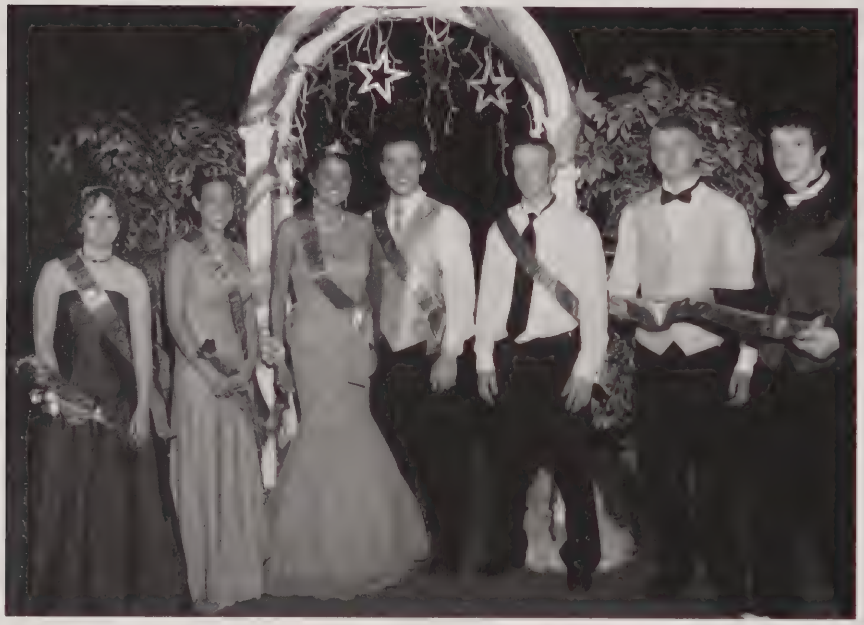
FEAST YOUR EYES ON THIS
Showing their unique personality in a way that a typical classroom environment would not allow. Corey Yoder, Max Beitzel, and Robert Stark perform a comedic dance to the song the "Eye of the Tiger" for their act in the show.

BACK AGAIN
Singing for her second and last year in the show Jackie Smetzer takes a deep breath after her performance "It's not really stage fright..." she says "it's more like butterflies."

SPINNING ON TALENT
Walking on your toes isn't easy, but Hannah Walters seems to be a professional at that. "I have been dancing ballet for almost seven years..." says Hannah.

WHACKY MOMENTS
Richard Warnick dances with a chair. What he enjoyed was "just being there with my friends and having fun since it was my last time to go," says Richard.

ROYALTY
Carly Chase, Megan Shaffer, Lakin Weimer, Eric Johnson, Micheal Wolf, Scott Fike and Corey Yoder were elected to prom court. Carly Chase actively sought a position on the court. "Well I was sick of seeing the same people win at dances so I took it upon myself to start asking people to vote for me," says Carly Chase



FUN WITH FRIENDS
Max Bietzel dances the night away. "I enjoyed eating dinner because it was awesome, and I liked doing our dance," says Max

DANCING TIME
Jayme Miller and Carolyn Maxim enjoy a quick dance. "I enjoyed dancing and spending the night with my friends because I love dancing and spending time with my friends," says Jayme

What did you enjoy most about Prom?

"I enjoyed being with my boyfriend, Trevor Butler."

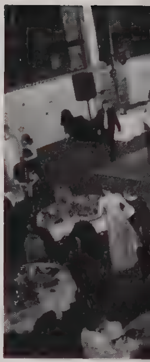
Abby Sherrard 9

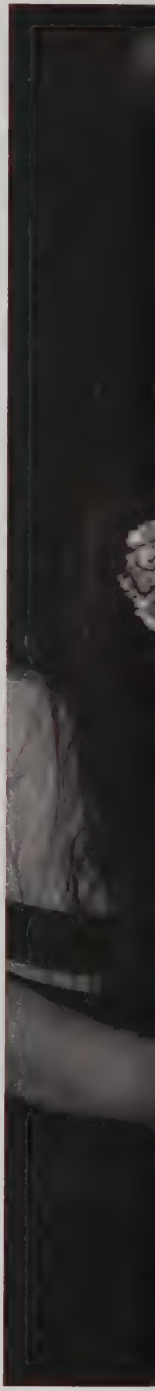
"I enjoyed where it was held, the Wisp was a good place for it."

Ryan Seaman 9

"I loved hanging out with my friends and dancing because I just love to dance and have fun."

Jackie Smetzer 12





AERIAL VIEW
A shot from the balcony provides a unique perspective of most of the students who attended prom at the Wisp Resort. "What I enjoyed most about decorating for prom was to see and be part of the final product." Scenic Garrett County offers a variety of choices for students to choose from in order to make each years' prom unique

WRAPPED UP
Shayna Kitchen and David Ringer enjoy a close dance. "What I enjoyed most about prom was being with my friends and having fun dancing. I enjoyed this because I got to hang out with my friends and my boyfriend," says Shayna.

A Shining Moment

Moonlight

Making Memories While Dancing the Night Away

Preparing for prom is one the most exciting parts of the event, from choosing a dress to deciding where to go for dinner and what to do at afterprom. Preparation is different for guys and girls. Most of the girls who plan on going to prom spend from one to two months getting ready for the last chance of the year to get all dressed up and go have a good time with their friends. According to Amanda Anderson "maybe about a month or two before prom is when I started to somewhat prepare." The guys who plan on going to prom spend maybe one week to two weeks before prom preparing. Shawn Covell began planning "two weeks before prom, when I found out I was actually going."

One of the most important parts of preparation is choosing what to wear. "The hardest part of choosing my dress was finding something that I felt comfortable in and comfortable about myself in it. And I wanted it to be unique and a dress no one else had," says Jackie Rodeheaver. The hardest part for most guys as Wayne Menges saids is "finding a suit or tuxedo that looked good because its my Senior Prom."

Most students choose their date for prom just because they are dating that person at that time. "We decided to go together when we were friends but we started dating not long after. I asked him because I really liked him plus he was fun," said Jackie Smetzer, of her date, Derrick Shepherd. But there are some students who chose to go with someone because "I love the girl and she is my girlfriend," stated Ben Wagner.

No matter how students prepared, prom was one of the most exciting events of the year. This years prom, held at the Wisp in McHenry,was decored in purple and silver to create a night of Mystic Moonlight.

By Jennifer LaMastus

A SHARED MOMENT
Ms. Ellis and Mark Thomas share a moment at the prom, enjoying time outside of school.
"What I enjoyed most about prom was the chairs because they were comfortable," says Mark Thomas.

A New Journey

The Future

The class of 2005 starts another journey in life leading to the future

Looking past the graduation caps and gowns and into the crowd of attendees at the Class of 2005 commencement ceremonies, many emotions were displayed. Graduates donned huge smiles as they accepted their diplomas from Dr. Teets, Mr. Maddy and Mr. Reichenbecher. Tears fell from some parents eyes as they knew that the loves of their lives would be going away to college in the fall, and others marveled at the accomplishments their children have made over the past twelve years. Friends were also emotional as they reminisced about all the memories made and said good-bye to their classmates.

Through high school, every student works to achieve the highest aknowledgement of academic acievement. Accepting this year's award of salutatorian was Hiedi Hare. Hiedi caught the audience's attention by using a story of four bunnies in her speech. The bunnies in the story illustrated that the kind bunny was always there for the beautiful bunny, smart bunny, and athletic bunny, always cheering them on, even if the kind bunny didn't have a talent of his own. Everybody will always remember the kind bunny. Scott Pusatari accepted the award of valadictorian. Scott gave the advice to his fellow classmates to prevail in everything they do and not to let people discourage them.

The Northern Garrett High School graduating class of 2005 had a beautiful, although humid, day to celebrate reaching the ultimate goal in their schooling. One hundred and twelve graduates walked across the stage on the fifth of June two-thousand and five, receiving their diplomas of accomplishment. Each graduate stepped off the stage, starting to travel down a new lane on the road of life, working towards their next goals. Whatever endeavors that come along, the best of luck is extended to every graduate.

By Jackie Rodeheaver

A MOMENT OF PRIDE
Jason Anderson proudly walks across the stage to be recognized as a member of the class of 2005. As one of the first seniors to walk, Jason was able to enjoy the rest of the ceremony from a spectator's point of view.

ONE OF A "KIND"
Heidi Hare shared her words of wisdom as the class of 2005's salutatorian. Although her speech focused on the importance of kindness, Heidi's academic success proves that being nice is not her only strength.

"PRINCIPALS" OF LIFE
Sharing congratulations for a job well-done, Mr. Gary Reichenbecher, principal, expressed his sincere wishes for the graduates' bright futures, hoping they will build on the principals they've learned thus far.

Graduates' Advice to Underclassmen.

"If you want to be somebody, if you want to go somewhere, you better wake up and pay attention."

Miranda Bageant

"Try your hardest and don't listen to the petty stuff that circulates in the school"

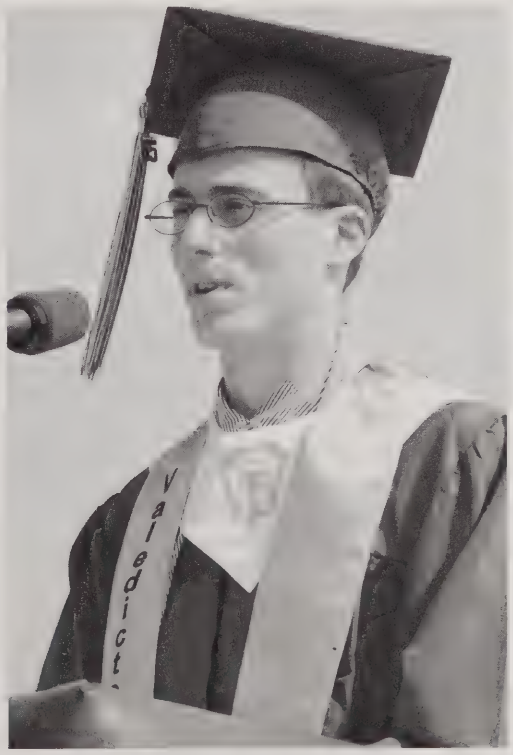
Stephanie Beachy

"Don' try to be someone you aren't."

Tyler Brenneman

PASSING THE MANTLE
Placing the mantle around Becky Berkebile's neck, Lakin Weimer senior class president, relinquishes her former duties. The importance of the job of class president is clearly illustrated in that the mantle ceremony takes place during commencement

A TOKEN OF REMEMBERANCE
After receiving her diploma, Shantelle Brenneman accepts a single yellow rose from class advisor, Sharon Derlan. A class advisor guides the class from the time they are freshman until they graduate and presents the flowers during the ceremony



A MOMENT OF RESPECT
Khris Brenneman respectfully stands as Laura Costa, fellow senior, sings the "Star Spangled Banner." Although Khris has only been a student at Northern for one year, he shared this important accomplishment with his husky classmates.

WORDS OF WISDOM
Scott Pusateri, urges his fellow classmates to follow their hearts and not yield to their fears. As his academic accomplishments prove, Scott's heart has led him to much success

HOW MAY I HELP YOU?
"The most annoying thing about being a hostess at Brenda's Pizzaria is when customers are rude. This is because they don't fully understand the complexity of my job," says Ashley Boylan.

MULTI-TASKING
Kim Beitzel works at Merkel. She says "I like that my job is a relaxing environment, but the worst part about having a job is that it doesn't give me enough time to hang out with my friends."

LIKE A WALK IN THE PARK
Lacie Bittinger, who works at Brenda's Pizzaria, says "The best part about my job is probably the people I work with because they make it fun." Lacie has worked at Brenda's for the past two summers.

YOU'RE STILL HERE?
According to Krista Burns, an employee at Smiley's Pizzeria, "The worst thing about working has to be hearing tourists complain constantly." While working at Smiley's, Krista's responsibilies included being a hostess and bussing tables

What do you like/dislike about working?

"The thing that I don't like about the job (McDonalds of Keyser's Ridge) is that it can be very stressful at times."

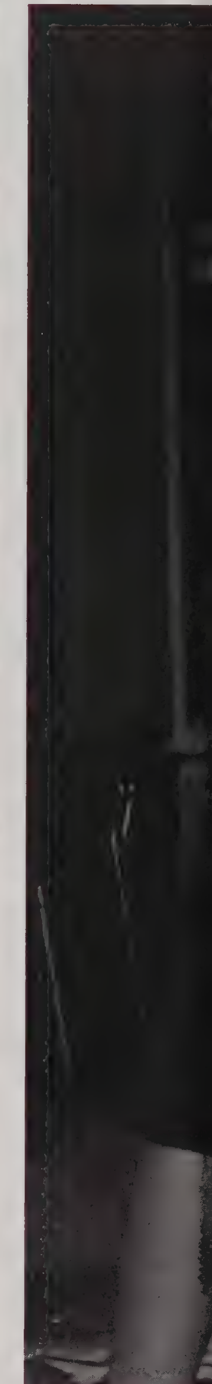
Billy Woods 11

"I like working with the people there (McClintock's Dairy). I also enjoy milking and working with the cows."

Ryan Braodwater 12

"I dislike work when nobody's there, (Bear Creek Traders) and it gets boring. I like it because everybody's nice that I work with."

Holly Wampler 11



Workin' Hard Pays Off

Why do students work? It's all about the money...for the most part.

MASHED POTATOES ANYONE?
Chloe Bauermaster says "Working at the Goodwill Mennonite Nursing Home as a feeder is a learning experience. I recommend the job to anyone who plans on going into Nursing."

A WARM AND FRIENDLY GREETING
"My favorite part about working at Smiley's Pizzaria is the people that I work with..., and my least favorite part is having to do closing jobs," says Ashley Branthoover.

Money! Money! Money! This is the main reason why students have a job. Of course, there are many other reasons as well. "I enjoy getting to know the residents because they have lived through so much and can tell some pretty cool stories," stated Amanda Kinsinger, who works at the Goodwill Mennonite Nursing Home.

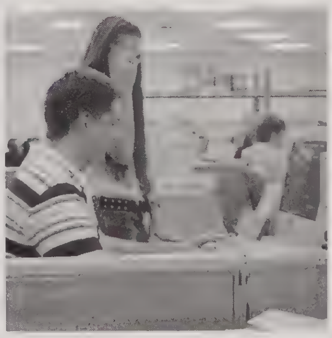
A job gives students a taste of what it is like to be in the workforce. Sometimes a job helps influence an individual's decision about what they want to do in the future as their career. Having an after school or weekend job also teaches valuable skills such as responsibility. According to Becky Berkebile, an employee at Annie's Kitchen, "Having a job has taught me how to talk to people and how to deal with stress."

Many students would agree that a job can be aggravating at times, especially when there is a big party going on at a friend's house, and you can't go because you're stuck working.

People say that work isn't just fun and games, but for some individuals like Shantelle Brenneman, who works at Subway, they try to make the best of it. "One time, when the manager wasn't working, we had a water battle and played hockey with the kids' toys. We weren't busy, and we had all of our work done, so we just felt like goofing around," stated Shantelle.

A job can be a major pain for some students, but it also leaves an individual with lessons that signify life long learnings.

By Chloe Bauermaster



ON KEY
Every job has a different description, as Barry Wilt and Sandra Beachy found out while working at Merkel. Barry Wilt states, "I key in the clients that they want me to, but I also have the opportunity to expand my capabilities;" however, Sandra Beachy says, "The only thing I do is data entry."

Helping Out

Striving

Students lend a helping hand to their communities and realize that it is appreciated.

Volunteering among students is very respected; however, students have mixed feelings about service learning hours. In order to graduate, seniors must obtain forty hours within their high school career. Many students would agree that volunteering should be an act of kindness and not a graduation requirement. Jared Beachy states, "I think service learning is a bad idea. It should be your choice whether you want to do it or not."

Every student has their own opinion about required service hours. Some students, like Shaina Custer, argue that service learning is a good idea. Shaina, who volunteers for the Accident Fire Department, says "It is a good idea because it lets students get involved in their community."

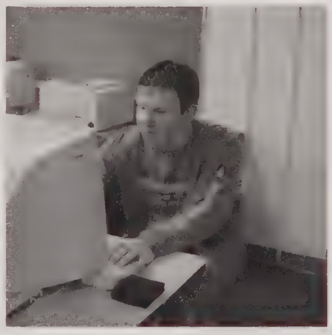
Not only does volunteering make a difference, but it also has other benefits. "Everyone should help out their community, and it makes them look better when they apply for a job," says Gerald Rizer, who is a Volunteer Fire Fighter for Grantsville. Along with the aspect of looking good on a job application, volunteering also allows a student to be open to new opportunities that benefit the community a great deal.

By Chloe Bauermaster

UNEXPECTED FRIENDS
Jason Doerr is a volunteer in the Blind Skier Program. He enjoys helping out as a guide, and in doing so, strong relationships are built. Jason says "My help is appreciated because the last boy I had really liked me and he stayed right with me."

LITTLE HELP, BIG APPRECIATION
Hannah Walters volunteers at the After School Program in Grantsville. She has a good time helping out with the kids. Hannah says "If you can understand people, you can understand yourself."

IT'S NOT AS HARD AS IT SEEMS
Brian Uphold volunteers as an I-TECH intern who helps students and teachers withc omputers. He says "Volunteering as an I-TECH intern benefits me and the people I am helping because I gain experience, and the people can work efficiently on their computers."



Service learning... help or hassle?

"It's not a big hassle because you get 30 hours at the middle school, so you only need 40 more hours."

Shantelle Brenneman 12

"I think it's a help to those who need it. If you are doing it to just get your hours, then it's a hassle."

Kevin Jones 12

"I guess it's all in how you decide to spend your time. For some people it's a hassle ... but for those like junior firefighters, they actually serve a purpose."

Stephanie Foutz 12

ROLE MODELING
Aaron Wilburn, a volunteer at the Grantsville Senior Center, serves as a role model by tutoring young students. He says, "I think that volunteering benefits the organization because there is someone else to help out."

BACK TO THE BASICS
"I love spending time with children and being able to enrich their lives through education and fun," stated Siobhan Howe who volunteers at the After School Program in Grantsville. She helps reinforce basic learning skills to improve the childrens' education.

PIECE OF CAKE
Bruce Dirden helps out the band by volunteering as a band aid. He says "It's always fun. You get to go on trips and help. I would recommend this type of volunteering to other students...because band aids are the foundation of a great band."

MORE THAN ENOUGH
Sandra Beachy is one of the few students who exceeded the minimum required service learning hours by choice. Sandra says "My favorite part about service learning was that I got to play with kids."

How have your friendships changed throughout the year?

Angie Umbel 11

"I'm not as good of friends with the people I played volleyball with because I don't get to see them as much."

Dustin Brenneman 11

"Your friendships grow with the people you have classes with."

Erin Brenneman 10

"Most of my friends are the ones I play sports with or have classes with."

ROW, ROW, ROW YOUR BOAT
New classes each year offer new experiences for students. For junior, Taylor Jones, his favorite part about environmental science is "going down to the creek."

A NEW PERSPECTIVE
Each new year helps students gain a new perspective in their life. In regard to her junior year, Jessie said, "It helped me get more prepared for college."

R-E-S-P-E-C-T!
Students' attitudes toward one another change as they get older. Baylee Martin-Selders says that "[she receives] more respect from other people" being a sophomore.

People

SENIOR STRESSES Often, students find preparing for what is ahead to be as stressful as actually stepping into that new situation. When asked if being a senior was stressful, Margret Mastej said, "Yes, I have three AP classes, a job, college applications to fill out, and I still need to find time to sleep."

A Fresh Start

Everyone experiences something new at some point in his/her high school career. Often these experiences can be scary ones. Freshman begin a new step in their lives when they enter high school. Neil Buckel says, "I was a little nervous about knowing where my classes were" on his first day of high school. Sophomores start learning to drive, and juniors begin the difficult process of becoming seniors. All of these new situations can impact a student greatly. For seniors, they are walking into a new world after high school. Whether it is work or college, seniors prepare themselves to face the real world ahead of them. To prepare himself, senior, Brian Uphold says,"I am taking a few certification courses for computers, but plan to enroll in a techinical school next year." Each new year gives students a fresh start.

By Keena Yommer

NOT JUST ANOTHER FACE IN THE CROWD Each student has his own individual way of standing out from the crowd. Chris Speicher says, "What makes me stand out from the rest of the student body is that I am friends with everyone and don't judge people on what they wear or who they hang out with."

"There is a good reason they call...

Amanda M. Anderson

Birth date: May 6
Nickname(s): Anderson
Activities/Hobbies : Volleyball, hanging out with friends, writing, "jamming out," reading, and eating
Future Plans: "Hopefully go to college, become a vet technician or a veterinarian"

Amanda Anderson

My advice to underclassman is "Be your own person and make your own decisions and not someone else's; keep your head up and don't let life get you down. Live each day as if it were your last."

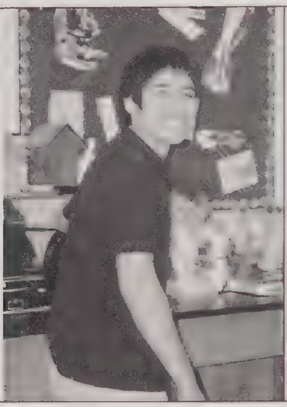
<<Devon Harman

Devon plans on "going to college and getting a degree in art and then hopefully working for Disney" after she graduates.

Corey Yoder>>

Blake Walker and Corey share a laugh at lunch, but commented on other classes. Corey said,"I enjoy government because I could quite possibly be your next president."



<<Gonzalo Velasques

Chilean exchange student Gonzalo said, "[The best part of this year was beating] Southern two times!! Soccer in general, for me, was the best of the year."

<<Margaret Mastej
Stephanie Beachy

For Margaret, the best pa
of school is "the fact tha
get to be around my
friends for 7 hours a day
everyday."

Darrick Lowdermilk

Most students rememb
time spent with friends a
classes. Darrick says," I w
remember all that I ha
learned...well some of i
leas

<<Ashley Snyder

Ashley waits for her bus with friends. She says,"My friends and I like to sing to old music in our underwear while making everyone laugh with our incredible dancing skills."

Tim Glotfelty>>

Tim plans on getting a "diploma from the Pittsburgh Institute of Aeronautics and achieving a career in the Aviation Field."

The Many Faces in a Changing Crowd

Moving on...

Entering a new school is like a new beginning, a new chapter in your life. It gives us a chance to start off with a clean slate. This is just what these two juniors are doing this year...

Chris Powell

"Meeting new people is the best part of moving to a new school."

"My least favorite part of moving is leaving old friends."

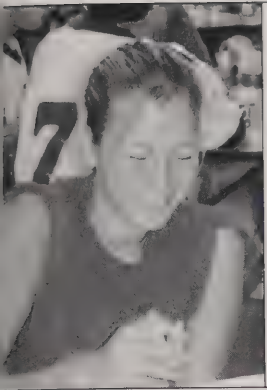
"NHS differs from my old school because it is twice as large and more agriculturally based."

Mariel Vallano

"I enjoy Spanish class the most here."

"NHS is smaller, stricter, and has much less diversity [than my old school]."

"Meeting new people and making new friends has been my favorite part about moving to a new school."



<< Amy Shaffer

Amy says,"[The best moment of the year was] Mr. Edwards, Mr. Berger,& Mr. Brenneman's mock Eye of the Tiger Dance."

Band Buddies>>

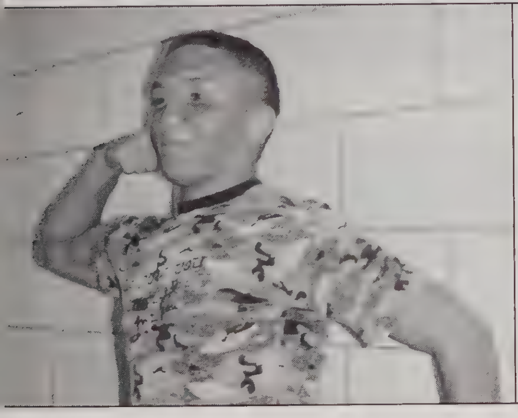
Christy Stahl, Caity Sussman
Keena Yommer, Jami
Haydel & Dana Hanniba
watch a band competitior
Jamie says,"No one realizes
how much fun band is
they're too caught up in ou
stereotype.

<<Amber Miner

This sophomore says,"[The best part of being with friends]is talking on the phone and eating ice cream."

Carolyn Maxim>>

Attending sports is a
favorite pastime for
students. Carolyn's favorite
class this year is gym
because "I love sports."



<<Mike Moyer

The most memorable moment for Michael Moyer this year has been "riding my kayak down the back stairs."

Star Athletes>>

Dani Glotfelty, Lakin
Weimer, Sarah Masters
and Nichole Kovach
huddle for a gym picture
Dani says, "I enjoy gym
because it keeps me
active during the day."

Aaron Rawe

Aaron, a senior, shares the best part of the basketball season, "beating Southern in overtime." The games in general are what makes basketball this athlete's favorite sport.

Not Just Another Face in the Crowd

Throughout a student's school career, he/she learns many valuable lessons. These lessons help to change and mold the student as an individual. Individuality is expressed everyday at the home of the huskies and is shown through sports, clothing, academics, music, art, and clubs. Carly Chase says,"[When I get dressed], I just put a bunch of stuff together and don't care what others think." This way of thinking is the inspiration behind many people's ways of expressing themselves, and as Carly says..."those are the awesome ones."

AT WORK AND AT PLAY

Northern Garrett High School students like to work hard and then play hard.

Angela Hoover

Samantha Guthrie, Christa Uphold, Angela Hoover, and Sheena McCombie enjoy sitting together at sporting events. Even though the fans are not on the court, the intensity of their attitude is equivalent to the [illegible] regards to basketball games and pep rallys: "Seeing all the people get [illegible] there and playing in front of people; I [illegible] there and play in front of people."

Christy Stahl

In order to succeed, studying for tests is a definite must. Christy Stahl believes, "I just try to make the best out of studying, even though it can be overwhelming at times."

Eric Johnson

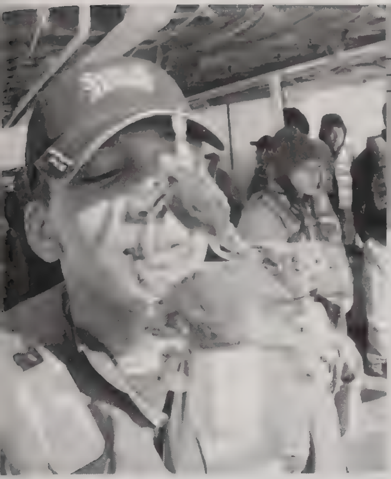
French III students participated in the play "Blanche Neige et les Sept Nains" or "Snow White and the Seven Dwarfs". Eric Johnson remarked: "I got to be the MC for the play. I really liked [it] because I had [illegible]"

Elliot Glotfelty

[illegible]

Nicole Kovach

Nicole Kovach from the Environmental AP class stated: "From this trip[Chesapeake Bay]I learned that the way that the people in today's society live is hurting our environment, and even little things like recycling help."



Michael Moyer

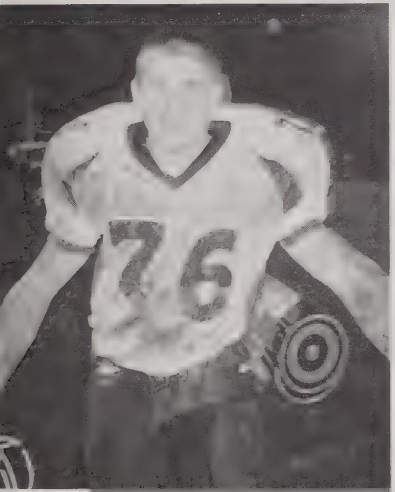
Many events occurred on the trip to the Chesapeake Bay. Michael Moyer exclaimed: "I kissed a fish before ripping it's entrails out, went mud-bathing, rode the Jenny S all the way to Fox Island, got crabs, and built a raft from buoys and a refrigerator door."

Heather Deem

Childcare is a class taken to teach students who are interested in an occupation dealing with children. As Heather Deem cut letters out for a bulletin board, she realized: "That it's harder working with little kids, than you think it would be because you have to get into the minds of the kids."

Alyson McKenzie

Biology covers an enormous array of topics and some of the topics are kind of controversial and apt to change peoples' opinions. Alyson McKenzie states: "We talked about a lot of things that have changed my perspective...one being genetic disorders; I never once thought that I could determine what diseases a child could (inherit) from their parents."



Jean Miller

Taking an honors course can be very difficult and time consuming. Jean Miller says: "Being in honors English has made me realize that it is much more than a game. There is a lot of thought and research that needs to be put into everything."

Jeremiah Wilt

Football players cannot be afraid to get dirty; they have to be alert and ready for anything that comes their way. Jeremiah Wilt, a senior football player, says, "I'll miss being part of a team and playing football with all of my friends."

Matthew Margroff

Being in extracurricular activities takes time, dedication and organization. Matthew Margroff, a member of the golf team, explained: "(I practiced) every night except for Friday(s), and it (took) about three hours (for) practice and four or five when we (had) a match."

Lighting The Way

Many people remember Mrs. Donna Carr as the kind, quiet lady working behind the concession stands at games, but there is much more. A closer look reveals that Mrs. Carr's life warmed hearts of many, not just those who played sports or supported the teams.

Mrs. Carr was a loving wife, mother, grandmother, co-worker, friend, and an all around great person. Many of her loved ones share memories that will last for eternity. Mrs. Berry, a personal friend of Mrs. Carr, says "I will remember Mrs. Carr as a loving, caring person who was always concerned about everyone else. She was always the first one to lend a hand whenever I needed anything. She was my right hand, and a day doesn't go by that I don't think of her and miss her." Mrs. Berry is just one of the many staff members who found a light in Mrs. Carr, making her far more than a co-worker–a friend.

Many of those will keep their stories close to their hearts forever. Mrs. Beachy says "Mrs.Carr was an asset to NHS by being here for all of us to feel that we could tell all of our troubles to, our triumphs, and our worries."

Evidence of Mrs. Carr's life-long committment to others is found all over the building. Whether it's on the baseball field, or in the classroom, she has touched NHS. One of the places where touch is most evident is in the VSST office. As Ms. Ellis shares, "When we went to Morgantown to get carpet for the new VSST office, we went to three different stores to find just the right one. At one store she was so dissappointed, she said she felt like taking her hand and swiping everything off the shelf. When we finally found the right color, mauve, we had to bring it home in her Ford Taurus. I had to sit in the back seat holding all of our other purchases in my lap with the carpet beside me, out through the trunk, and it was pouring down the rain. After we got the carpet, the next night we had to paint the walls. When we finally finished decorating, we sent out invitations to all staff for an open house party, cookies and punch for everyone. We had a wonderful time." Regardless of circumstances, Mrs. Carr managed to turn everything into a memorable experience. Perhaps that's why we'll remember her so fondly.

By Chloe Bauermaster

JUDGEMENT DAY
Choosing a science topic is often very frustrating. Chris Spiker is one student who found this process exasperating. "I chose chemistry; all I did was trade last year's project ideas with one of my friends; I couldn't think up anything myself," says Chris.

"I Don't Need No Education!?"

Au contraire. Receiving a good education is extremely beneficial in the long run, and what we learn today will help us tomorrow. Although, school can be really stressful because of homework, studying for tests, extracurricular activities, not to mention maintaining a social life, it is possible if you stay organized. Rachel Karsten declares: "I believe that I am very organized and therefore, manage my time wisely." According to Victoria Moser, her study habits have changed "since I have harder tests than last year, I just have to study more." In fact, organization played a key role in the school's renovation. Just as students have a schedule to keep, the construction crew also had to follow a work schedule. They set dates for when they wished to complete goals, and students sometimes set goals for themselves academically as well. So, just as the school got a face lift, so did students study habits. Amy Lander suggests: "I have studied more and more. The places I study have changed." When we finally reach these goals, we feel proud and realize that through all the agonizing homework, tests, and projects, it was well worth it in the end.

By Christy Stahl

INMATE
IRAQI FREEDOM
CORRECTIONAL FACILITY

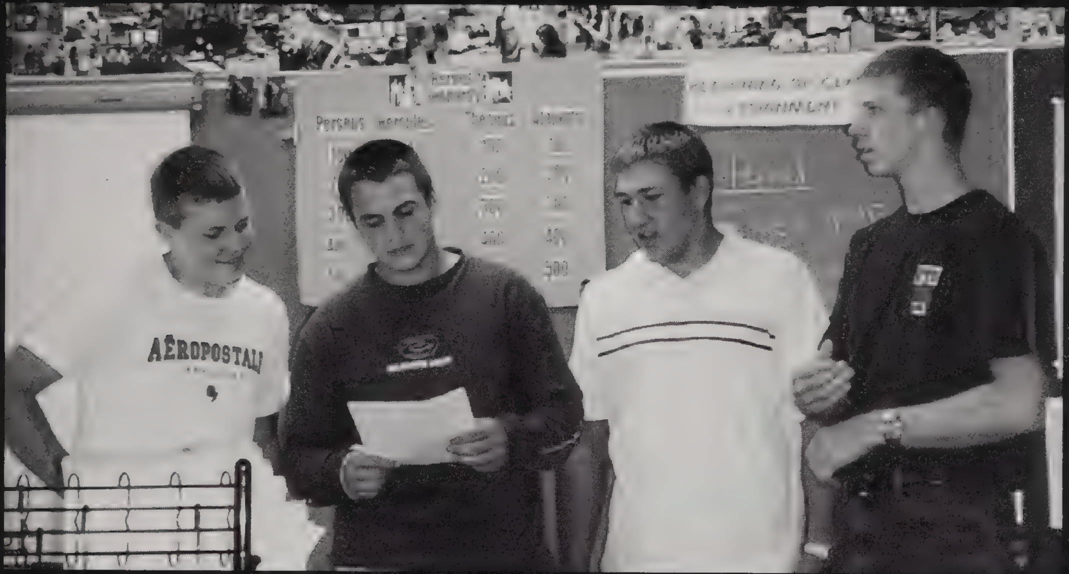
MAD SCIENTIST
Chemistry labs allow students to gather knowlege while doing experiments that are hands-on. In regard to the chemistry labs, Justin Compton states: "All of the labs have been fun, [but if I had to choose one], the Gak lab [would be my favorite], because we got to make silly putty."

SOMEDAY MY PRINCE WILL COME
One of the most important aspects of a play is making sure everybody has their lines down. Nick Maxim realized "At first memorizing lines in French was difficult, but it ended up easier than English."

Describe some of the goals you set for yourself academically this year.

Mitch Fost, 11

"Hopefully this year I will conquer adversity and make the honor roll for the first time since 7th grade."



Tara Brenneman, 10

"I wanted to be on the honor roll all year."

MYTH BUSTERS
Mrs. Lewis's sophomore English class was assigned projects dealing with Greek mythology. They were able to work in groups, which most of the students enjoyed including Corey Carr, who explained: "I enjoyed working in the group and learning more about mythology."

SIMULATION SHOWDOWN
The school's appearence has been greatly improved, but there are still improvements that could be made. To make the simulators more realistic Erin Brenneman believes: "If you could actually tell where you were steering like in video games (that) would make the simulators better. They are really old, so if we got new ones that might help too."

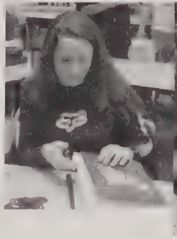
Erik Wood, 11

"I set out this year to do as well as I have in the past, that is to get nothing below a B."

Mariel Hady reads silently in her English class. "I enjoy the teacher the most. Ms Zollner makes the class very enjoyable," says Mariel

Angela LaMastus works on grammar exercises in small groups for Mrs Fleming's English I class. "What I enjoy about English is the teacher because she helps me understand things better than I usually do," says Angela.

Robert Bowman reads while in Mr. Kolbe's English IV class. "What I enjoy most about English is running a kayak down the stairs," says Robert

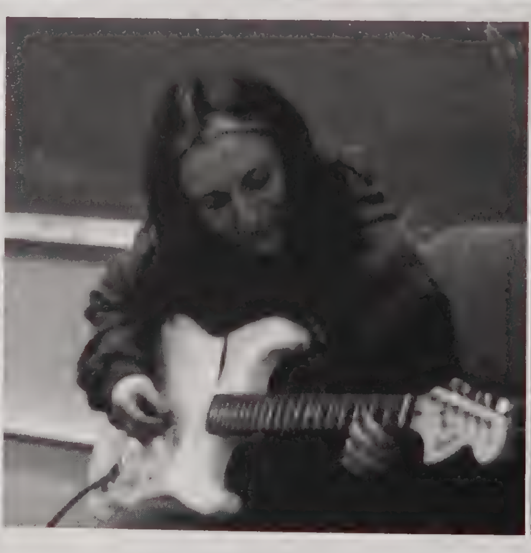


Tracy Bowman prepares to open her English book so she can participate in class "My favorite part about English is learning to understand different forms of poetry from different time periods because it helps me to understand the beliefs and ways of life," says Tracy.

Nicole Kovach reads a story in her English IV class. "What I enjoy most about English is the chance to show your creativity," says Nicole

A NOVEL IDEA
Kayla Synder, Courtney Bowman and Kalen Long work on their Lyddie posters for Mrs. Coburn's English III class. "What I enjoyed most about Lyddie was that it explained history," says Courtney. Lyddie is the novel that they are reading in class.

READING BETWEEN THE LINES
(Above Center) Alyson McKenzie and Kenny Reams play a class game during English. "What I enjoy about English is the creative writing assignment and being able to read between the lines in a poem because it shows you different aspects on life," says Alyson.



1. Lindsay Phillips reads a novel in Ms.Zollner's English II class. "What I enjoy most about English is the teaching techniques that Ms. Zollner uses to teach and keep it exciting," says Lindsay. 2. Jessy Beal plays her guitar as a part of a poetry presentation in Mrs. Lewis's English III class. 3. Blair Silbaugh and Bradley Friend work with partners on grammar exercises. 4. Jordan Smith sits in the library working on research. "What I enjoy most about English is Ms. Zollner makes learning fun, and she treats us like adults instead of children," says Jordan. 5. Andrew Minnick works while on the creative writing trip at Frostburg State University. "I enjoyed hearing what other people wrote. It's always nice to hear how different people write and how well it sounds despite that vast differences," says Andrew.

Voices

from the

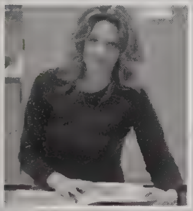
Classroom

Mr. William Kolbe

Mr. Kolbe teaches merit, honors, and AP English for 10th, 11th and 12th graders. "Teaching is fun; teaching English is even more fun. Literature creates the movies of the imagination; teaching develops the film." He has been teaching for 21 years.

Ms. Michelle Zollner- Bartholomew

Ms. Zollner-Bartholomew teaches English for 9th and 10th graders."I have always loved literature, speech, and the use of words." She has been teaching for 24 years.



Mrs. April Fleming

Mrs. Fleming teaches 9th grade English and Yearbook. "I chose to teach English because I enjoy literature and writing, and I also enjoy working with students." She has taught for 5 years.

Mrs. Melinda Lewis

Mrs. Lewis teaches 10th and 11th grade English and Yearbook. "For as long as I can remember, the idea of being a teacher has interested me. My love for literature and writing drove me to become an English teacher," says Mrs. Lewis. She has taught for eight years.

Mrs. Sharon Derlan

Mrs. Derlan teaches 9th and 12th grade English and Theater. "I love to read and write. I like studying English and thought I could teach it." She has taught for 23 years.

Mrs. Lynn Coburn

Mrs. Coburn teaches 11th and 12th grade English. What I enjoy about teaching English is "I love the opportunity to interact with young people in order to share my love of literature." She has been teaching for 18 years.

Expression

The Principles of Literature and Writing

From research papers to grammar and punctuation, English classes are always learning new things. Contrary to popular belief, English is a class that students can get something different out of all four years. "The most important thing I learned in this English Class is how to write an essay easier. That way it is easier for me to write them in college," says Ashley Garlitz.

The English I class is an introduction to skills used in all four years of English. What Eric Smetzer enjoys about English I is "I love to read because I love to read my favorite books." Students read literature from a variety of genres and literary traditions.

The English II class focuses on World Literature. "I have learned that no matter how well you do in English, you can always do better. Also I have learned that learning never stops when it comes to English," says Anna Checkes.

English III centers on studying American Literature. "What I enjoy most about English is Mrs. Lewis because she is a great teacher, and she helps out people when they need help," says Keenan Kabell.

The final year of English involves a study British Literature. "I enjoy English because it is British Literature because England is my favorite country," says Kayla Sines.

Even though each year students improve writing skills, think critically about literature and learn to communicate effectively, they learn to do so with more difficult literature and with more sophistication.

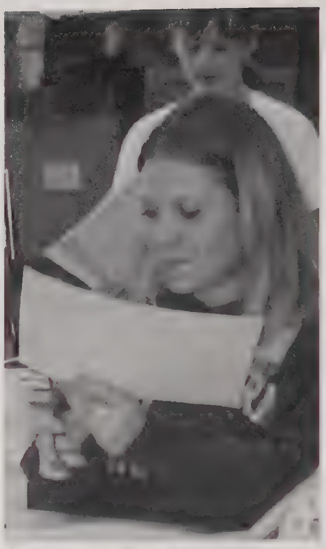
By Jennifer LaMastus

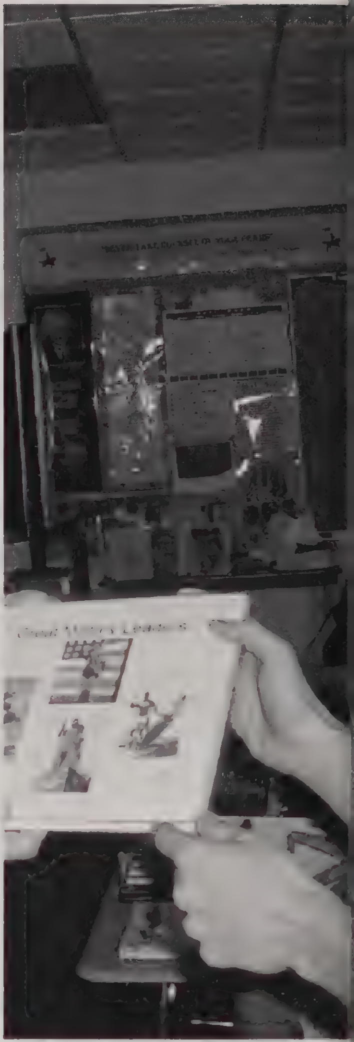
ALL DRESSED UP

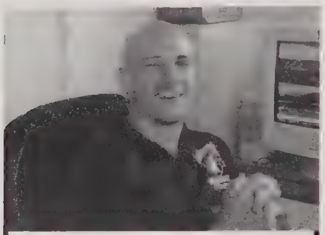
Johanna Winter and Ashton Graham give their presentations on Romeo and Juliet in Mrs. Derlan's English class. "What I enjoy most about English is Romeo and Juliet and making up a dance with other people," says Ashton Graham. Presentations are a part of English every year.

BOOKING IT!
Brooks Dubose helps kids cut pictures out for a children's book. My book was on "museums throughout history because I like music," says Brooks.

A CUT OF HISTORY
Shayla Rodeheaver works with a student from Yough Glades on designing a children's book. I really enjoyed "working with pre-k kids because there was never a dull moment," says Shayla.



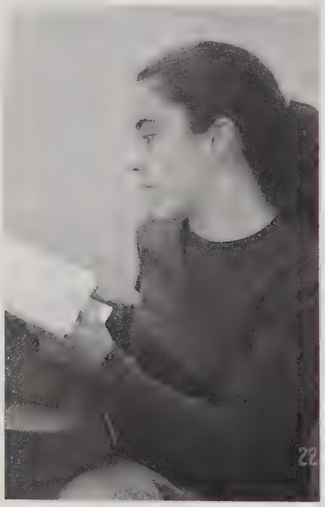




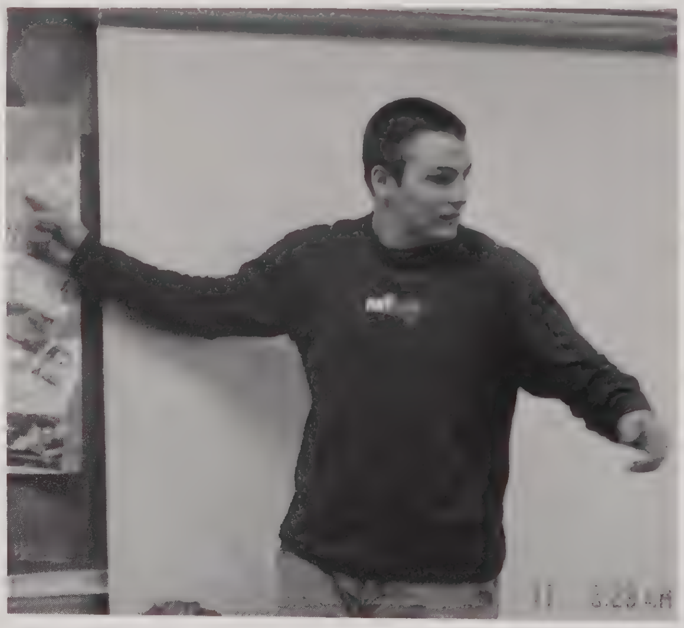
MR. PAUL EDWARDS
"I've always been pretty fascinated with other cultures and times. I also think history attempts to answer the questions we all want to know: 'Why are we here?' 'Where did we come from?' and 'How did we get there?'" says Mr. Edwards.

MR. SHAWN NICKLIN
"I chose to teach history because I like stories about wars, heros and heroines, great thinkers, events and the little things that made the difference. I also like The Bathroom Reader," says Mr. Nicklin.

MR. RON OPEL
My definition of history is "Anything that is in the past, whether it happened years ago or just a few seconds ago, you make your own history," says Mr Opel



FACT OR FICTION?
"The thing I have found most difficult in government has been memorizing all twenty-seven amendments of the Constitution," says Christy Stahl as she studies her textbook. Memorizing the amendments is part of Mr. Opel's eleventh grade government course.



GUESS WHO
Corey Carr acts out a piece of history as he plays charades to review for a test. In history we play "charades and bingo, which help me learn the information for the test, have fun and help us loosen up," says Corey.

NOTING HISTORY
Ariana Wilt completes a study guide for Mr. McKenzie's U.S. history class. While time consuming, "memorizing notes" is one of the most useful study tactics, says Ariana.

A Blast From the Past

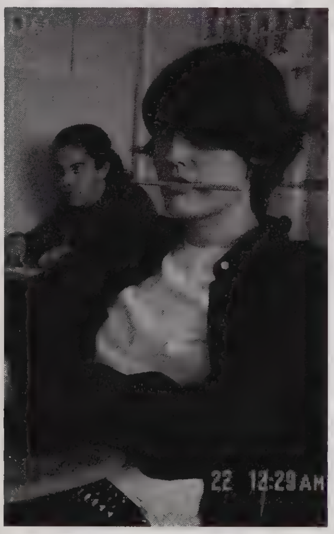
Making Our Place in History

"History" is a Greek word which literally means "investigation"(Arnold Toynbee.)There is much more to this concept than a load of compiled facts, dates, and names. The past is an outline for what is to come in the future; what better reason to study it? From a historical perspective we can see things evolve and change overtime, for the better or the worse. "If we do not like the past, it is we who must change it." (William L. Burton)

History is an every day event. We make it as we study about it. "Taking a history class and enjoying it gives you great background knowledge of your country and the world. I don't want to be one of those people who grows old never knowing why our country is the way it is and what we went through to get that way. I want to be as informed as possible," says Brittany Milbourne, a senior AP history student. Brittany's is just one of many reasons to study history. AP history will better prepare me for the future because "I plan to double-major in history and political science when I go to college, so despite what I score on the AP test, learning the material will benefit me in the future," said Erica Maust. History is a mystery...until we reveal it.

By Bethani Gillum

"We use the book a lot more" than in 8th grade. "I understand the material better this way," says Sarah Griffin.



POLITICAL PRINCIPLES
Laura Maust participates in Mr. Opel's merit, government class. "I find it interesting the way history repeats itself," says Laura. To her, history is no mystery.

J.McCrobie
Photography

BEYOND THE CLASSROOM
Brock Glotfelty computes information for elementary students as he aids them in constructing their own children's book. My favorite thing we've done in history this year is "hearing stories by Mr.Nicklin because most of them are off topic," says Brock.

Students Pictured Above Left

1. Keith Covell

2. Leah Frazee

3. Neil Kamp

Calculations

Learning Formulas, Equations and Theories

Whether we think we do or not, we use math every day of our lives. Practically everything we do involves math in some way, shape or form. Teachers make math fun and interesting by doing small activities and relating math to everyday life.

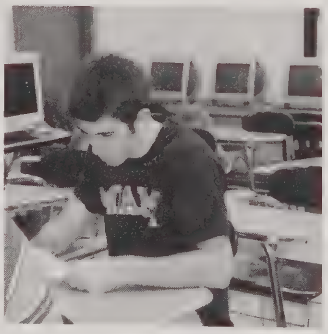
Some math teachers have tied art in with math. Mrs. Harvey lets students do fun activities that involve colors, shapes and patterns. Students can make a pattern on a large piece of paper using any shape they make. They can then decorate the patterns and put them on display in the classroom. Mrs. Grimm lets her students use basic geometric shapes to create fun looking drawings and designs. Keith Covell said, "I enjoy constructing shapes with the geometer and drawing teselations to make a pattern." When you mix fun and learning together, the result is extraordinary.

Mr. Hostetler's precalculus class is having their own fun this year. They are using a new program called "The Accelerated Math Program" to learn, practice problems and test. The program is on the computer and lets the students print out worksheets, reviews, and tests to work on in class. When asked about the Accelerated Math program, Michael Moyer said, "At first I hated it, but now after getting used to it, I think I would have benefited if I had it all four years of my math classes." The students using the program enjoy the fact that they can work at their own pace, not to mention the multiple choice answers.

Many students think math is a difficult subject because they don't understand the formulas, equations, and theories behind math. Most students don't think they'll ever need to use the math they learn in school when they get out of school. Math is needed everywhere. It's needed in the workplace, at home, and many other places as well. Once students begin to apply themselves and learn how to do things, they think math is fun. School isn't always as hard and boring as most people think.

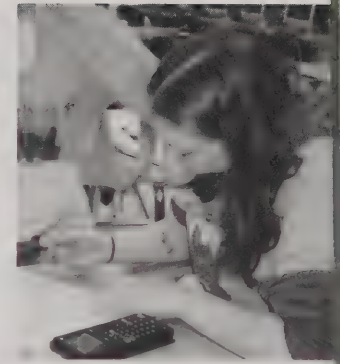
By Ashley Ross

ABOVE AND BEYOND
As a senior, Robert Stark will graduate with one more math credit than what is required; thus, preparing him for the academic rigors of college. "I thoroughly enjoy all that mathematics has to offer. Math is like a warm bowl of grits...good to the last spoonful."



WORKING AT A PACE
Janine Beachy's pre-calculus class is using the new Accelerated Math Program. "I enjoy the new accelerated math program on the computer because I can learn at my own pace," said Janine Beachy. "Pre-calculus is very hard and challenging."

HARD AT WORK
Angela Hoover works hard on practicing math problems. "Mr. Hostetler explains to me... everything and how I do it and makes us use the computers to practice our math problems," she said. Students like using the computers to complete their work



Voices *from the* Classroom

MRS. BETSY DEEM

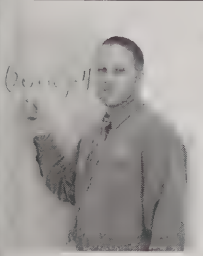
Mrs. Deem has been teaching here for 27 years. Currently, she teaches calculus, pre-calculus and integrated geometry. She enjoys "the interaction with the students. It makes my day when I see a student's light bulb turn on."

MS. TINA HARVEY

Mrs. Harvey has been teaching here for fourteen years. This year, she teaches algebra, geometry, integrated math and advanced integrated algebra. "I enjoy teaching math when I see students get the connections between math and science, music, art, our history, and almost any other subject."

MRS. GAYLE GRIMM

Mrs. Grimm has been teaching here for a total of twelve years. She currently teaches geometry, algebra and statistics. She enjoys math because "math is very systematic. Just follow the rules, and you can't go wrong!"

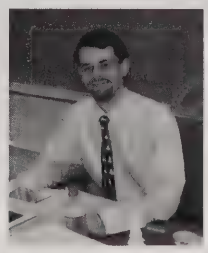


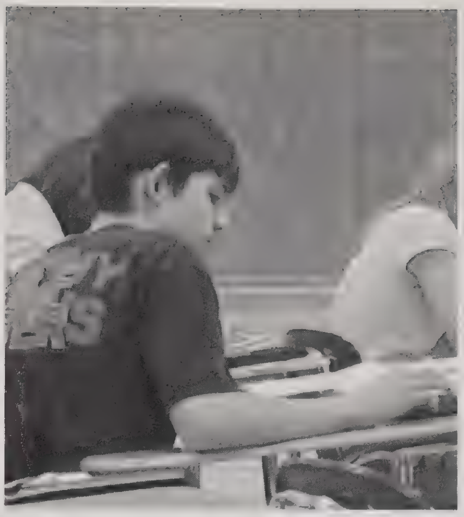
MR. GREG HOSTETLER

Mr. Hostetler has been teaching for a total of six years. Five of those years have been here at Northern. He teaches pre-calculus, algebra II, advanced integrated algebra and integrated math. "I enjoy the interaction with the students."

MR. JUSTIN KEEL

This is Mr. Keel's first year teaching. He teaches SAT math, algebra II, advanced integrated algebra, and statistics. "I enjoy teaching math because... math is a difficult subject for most students, so it is very rewarding when you can help them understand more clearly."



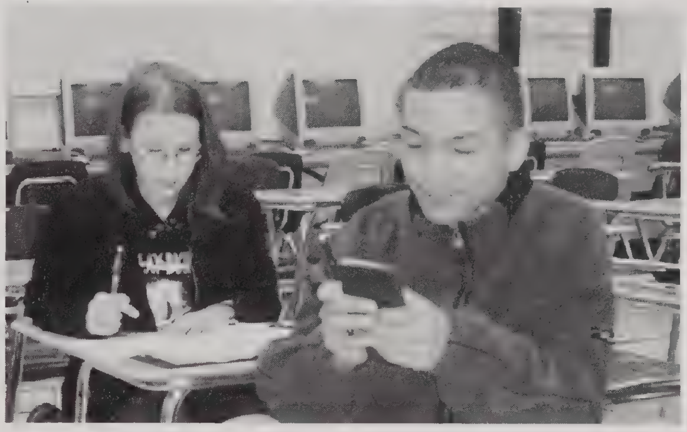


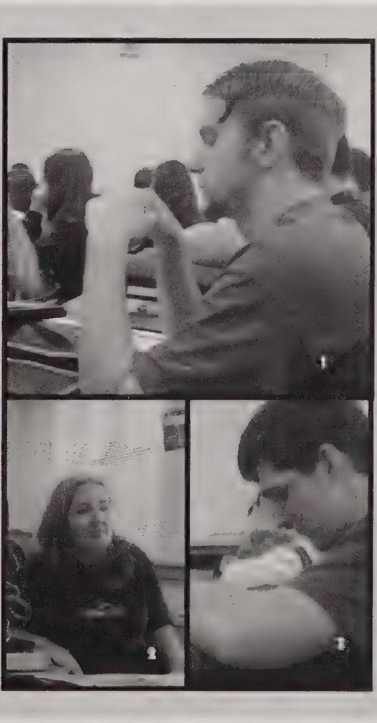
GEOMETRY AND ART

In math, students sometimes get the chance to play with geometric shapes. Keith Covell got the chance to do this in Mrs. Grimm's class. Mrs. Grimm "gives us the opportunity to create art and shape designs and lets us occasionally watch videos from all the hard work given out earlier," said Keith Covell

MAKING MATH FUN

Students find it easier to learn when the teachers make math relevant everyday life, or when they plan fun activities for them to do. Mr. Hostetler "picks on the students and makes jokes so that the whole period goes by relatively quickly," said Michael Moyer. Michael is part of Mr Hostetler's merit pre-calculus class.





A NEW APPROACH WITH MR. KEEL

1. "Every once in a while he lets us play games," said Ryan Yoder.
2. Mr. Keel "uses the chicken" to make math fun, said Holly Wampler.
3. "It's cool because he is close to our age and understand us," said Adam Rounds.

SHAVING WAX
Amber Dewitt and Scott Fike work together on a lab in Mr. Price's class. They had to shave off pieces of wax to see if they would dissolve or not. "I like the hands-on part of the lab," said Amber

Adam Hannibal 11

Adam is a biology student and enjoys "going outside and the labs."

Matt Bass 12

I like science "because I understand it, unlike English." The best part of class is "watching Mr. Berger be really hyper."

OBSERVING THE OBVIOUS
During a chemistry lab, Lacey Garlitz writes down several obserations from the lab. Observing and recording what you see during a lab is very important. "I enjoy the labs we get to do in class because they are hands-on activities that we get to use chemicals and other liquids to complete..."

LABS GONE LIQUID
Mr. Price's classes always have fun and interesting labs to do. Jessica Rounds, Courtney Bowman, and Kimberly Beitzel observe the results of their liquid lab in Mr. Price's class. "I liked that it was fun, and you get to choose the group that you want to be in," said Jessica Rounds

OBSERVING IN ACTION
During an ecosystem lab in Ms Slagle's class, Sarah Shawley measures forb. "I like the hands-on learning. It helps to understand the assignment better," she said. Science classes have the opportunity to observe natute in action at the Hickory campus.

Explanations

Exploring the World Through Science

Students love to do hands-on activities that are full of fun and interesting things to learn, so naturally, they like science because it shows how objects and organisms work, react and live. The natural world comes to life as students explore various reasons and purposes behind its existence. In earth science, students explore various scientific concepts related to our planet. While in biology and chemistry, students explore everything from living organisms and how are formed to how chemicals react with other things as well as how to preserve the environment.

Through labs students investigate how elements of nature work, live and react. Sarah Shawley said that she likes science because "everything involved has a purpose and a role in life." The most interesting part of science for her, then, is seeing the role and purpose of everything in our lives.

Through the labs done in each science class, students get to test scientific theories first hand. Many students love science and all that comes with it. Richard Cosner said he enjoys "looking forward to going to Mrs. Harman's at the end of the day."

Science can be one of the most interesting subjects in school. From making slimy gak or ice cream to watching interesting movies or going on fun trips, students experience science directly. Scott Fike said that he enjoyed doing the labs in chemistry. I enjoy "having fun," he said. The study of science offers students a chance to learn by doing, which is why many like what the class has to offer.

By Ashley Ross

WORKING TOGETHER
Robbie Bowman, Devon Harmen, and Gonzalo Valesquez complete a lab in Mr. Berger's physics class. "I enjoy the labs that we do and learning all of the interesting information about physics," said Devon. "We do labs that deal with different types of physics."

MS. MICHELLE HARMAN
Ms. Harman has been teaching for fifteen years. Currently, she teaches earth science, biology and AP biology. "The two features that make my job enjoyable are the students and my colleagues."

MR. BRIAN PRICE
Mr. Price has been teaching for ten years. He currently teaches chemistry and chemistry in the community. He enjoys "seeing students rise to the challenge of learning chemisty."

MS. APRIL SLAGLE
Ms. Slagle has been teaching for four years. This year, she teaches AP environmental science and biology. "I love the kids - they are different and lively everyday, and help to keep me young."

MR. DEREK BERGER
This is Mr. Berger's first year teaching. He teaches earth science, physics, and chemisty. "I enjoy working with students to help them succeed. I particularly enjoy working with students in the laboratory atmosphere."

Life Skills

Building a Foundation for a Safe and Healthy Future

What do drivers' education, health, weight training, and physical education all have in common? All these classes provide students with a foundation for their future. These lifeskills are all something that benefit students not only now in high school, but later on in life as well.

Health class teaches students how to stay healthy and stay active, and both of these are skills which you can improve. Staying active and maintaining a healthy lifestyle may help you in the long run.

Nothing helps you better in life than knowing how to drive, and that is exactly what the purpose of driver's education is. Being able to learn basic skills about driving safely now in high school will benefit your driving throuhout your life.

Physical education is a class where students have a chance to exercise while doing their favorite activities. Students usually favor this class over the rest because they can spend time doing activities with their friends. Senior Ben Wagner says, his favorite activity to do in gym is "football" because "its fun." Being able to exercise in physical education helps you keep in shape and teaches you how to maintain it throughout your life.

Just like in gym class, weight training gives students time to exercise and use different techniques to stay in shape. Dani Glotfelty says," I enjoy weight training because it helps keep me in shape when I'm not in volleyball and softball." Weight training not only helps you stay in shape but can also build your self esteem.

All these different classes are life skills. Students are taught different concepts to not only help them in high school but throughout life as well. Each class helps you build a foundation for a safe and healthy future.

By Andrea Warnick

GOING FOR THE WIN
Senior Darrick Lowdermilk was one of the people who got to participate in the badmitton tournament. Darrick said that," I enjoyed getting out of class and having fun."

MR. DON DOUDS
Mr. Douds's favorite thing about teaching drivers' education is that."I can witness the improvement of student's driving skills/defensive strategies. What students learn in the classroom/simulator training must be applied to on-the-road driving sessions." Mr. Douds received his Masters of Educaton from the University of Pittsburgh which encouraged him, "to teach only driver education."

MRS. TERRI STOUGH
"I enjoy teaching students how important physical activity is to having a healthy life. The more active a person is the better..." Mrs. Stough has been teaching weight training for 21 years and health for 10.

MR. PHIL CARR
Although his schedule does not allow him to teach health, physical education, and weight training Mr. Carr says, "I do really enjoy teaching those classes when I can because I have always been involved with althletics and they all are a part of it." This is Mr. Carr's 15th year teaching here at NHS.

MR. HARV SPEICHER
He says his favorite part about teaching health, physical education, and weight training is, "Working with the students." Mr. Speicher has been here at NHS for 30 years.

STRENGTH IS THE KEY
Jimmy Swauger shows his strength while in weight training class. He said "I like lifting weights the most because I can stay in shape."

READY SET DRIVE
Kelsey Lytle waits for instructions before using the simulators. Her favorite part of drivers education is "just learning the many things that it takes to accomplish driving. It's amazing how hard you have to concentrate on many things at once."

Baylee Martin-Selders 10

"I like gym because I have it 4th period and because I get to play basketball. I also get to play sports with my best friends. I love Mrs. Stough, too!"

Loren Klink 10

"The thing I enjoy most about gym class is our choice of what to do and our great teacher, Mrs. Stough."

NEED FOR SPEED
Corey Carr uses the simulatars during his driver's education class. Corey feels that drivers ed. is a good experience because "It helps you to better understand what you should do and how to be a better driver."

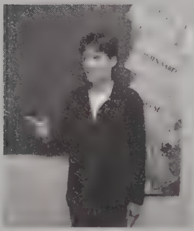
SWEET VICTORY
Senior Lakin Weimer was one of the participants in the badmiton tournament. She said "The badminton tournament was a lot of fun and very competitive. Sarah Masters and I won the girls championship."

PUMP IT UP
Senior Sam Sizemore builds his strength as he lifts a weight in weight training. He said "I liked that I was given a chance in school to make myself physically fit."

"What you do today will echo in eternity."
-Benjamin Franklin

The Big Decision

What made you do it?



MRS. JEAN WILT:
"My father inspired me when I was in the third grade, and he was trying to learn Spanish with my mother and their friends. My father would teach me words at the dinner table or in the car when we were on a trip."

MR. KENT KENYON:
"My father, he was always inspirational and supportive of everything I've done. He is one of the biggest [reasons why] I am where I am today."

In high school, students are required to have at least one fine arts credit. These include foreign language, art, chorus, and theater. Many students make their choice based on future plans and interests. Katy Towers, a student in Mrs. Roberts' art class says," I hope to be an author of both fantasy and graphic novels so art would be an extremely high priority."

Some have a difficult time choosing between French or Spanish, the two foreign languages offered. In Mr. Norris's French class, Cassie Fike says, "I plan on visiting France and going to college with some foreign language." Jessica Buxton, a Spanish student in Mrs. Wilt's class says, "This class will benefit me in my future because I want to do something with the law and need to know at least one foreign language."

Theater is the class where young actors begin taking their first step towards their career. This class will benefit Max Beitzel because "I might do some small plays, and when I do I will be ready because I will have had this class." The other performanace art, chorus, allows students to sing, dance, and read music. Performance art classes allow students to demonstrate their talents.

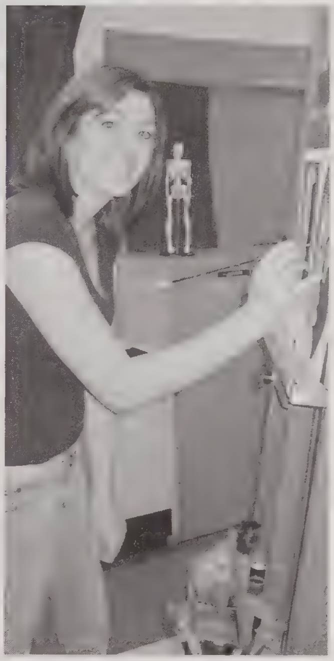
All of these classes give students that one fine art credit they need to complete high school, and they often choose which class they will take based on their future pathways. *By Alyson McKenzie*

JUST GETTING WARMED UP
Warming up for class Cortney Stein says she took chorus, "because I like to sing and the class is fun." Taking the course as a freshman, Cortney is able to complete her fine arts credit early in her high school career.

OBSERVING THE OPTIONS
Victoria Moser concentrates on an art project. "I like art because we're able to express ourselves," says Victoria. Students find that taking fine arts courses not only allows them to express themselves but also develops their talents.

IN FRONT OF AN AUDIENCE
Nicole Kovach, Erica Maust, Barry Wilt, Shaina Custer, Jayme Miller, Dani Glotfelty and Janine Beachy surround the fallen snow white. Shaina says, "I enjoyed the play I was in the most, because we were the best!"

A WORK IN PROGRESS
Making additions to her project, Erica Maust, an Art III student says "I enjoy art because it allows me to express my ideas, creativity, and thoughts on...the most obscure topics." Although one fine arts credit is a requirement, many students choose to take the classes for more than one year



STUDY, STUDY, STUDY!
Jackie Rodeheaver studies for a French test. "It can be challenging when you're first learning it, but once you get the hang of it, it's easy." Some students take a foreign language for the first time thier sophomore year

WORKING TOGETHER
Jessica Beal socializes during an art project."There's always something to do or something to make," says Jessica. Hands on projects allow students the freedom to talk to others and share creativity

MAKING NOISE
In general music, senior, Gerald Rizer pounds away on the piano. I like "having fun with my friends and playing on Mr. Kenyon's piano." Although Gerald is not interested in a career in music, he demonstrates that fine arts classes tend to have a universal appeal

Application

Building Skills for Life

Agriculture, masonry, drafting, carpentry, auto mechanics, elecronics and machine tool. What do these classes all have in common? They are all vocational classes that students can take to gain skills in a field that they would like to pursue as a career. Trevor Butler chose "masonry because you can see the end result of a good job."

Drafting, carpentry and masonry are all classes that teach interrelated skills. They all go together because students can use the drafting for the layouts of the building that will be built. Brad Brinegar states "I like carpentry because I get to work first hand." Masonry students can also use blue prints of a basement in order to build a foundation for a house.

Agriculture classes teach other skills that will always be useful in the ever-changing world. In these classes students learn about small engines, greenhouses, animals and computers.Most students would like to learn how to do their part in the world.

The study of agriculture has been around for a long time and will teach students to keep the agriculture field alive. In addition to learning valuable information, students in vocational classes also have fun."My most memorable moment in the classroom is when Mike (McKewen) dropped the water hose while it was still on and Richard Warnick got soaked with the waterhose," stated Amy Sliger.

Auto Mechanics, Electronics and Machine Tool all have common aspects. How? They all use the same materials to make and assemble a final product. For example metal is an important part of making things whether in vehicles, in mother boards for computers or to weld pipes together. In machine tool students learn how to weld and manufacture metal parts. "I think my new favorite thing is gonna be working on the electric car," says Paul Railey.

No matter what their interests, students in vocational classes build skills that can construct a lifetime of enjoyment and prove that the high school experience consists of much more than just books.

By Rachel Schmidt

WORKING HARD

Dustin Brennman is working on his electronic project. Dustin states that he wants "to learn more about sound engineering and the recording studio." He is one of many students who would like to pursue a career in a vocational field.

Voices

from the

Classroon

Mr. Mark Kirchner

Mr. Kirchner has been teaching electronics for one year.Mr. Kirchner states "I always have been interested in electricity, ever since I was a little boy."

Mr. Bob Moranduzzo

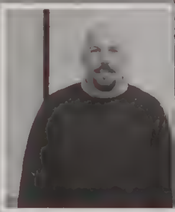
Mr. Moranduzzo has been teaching auto mechanics for nine years at Northern and two years at Central Westmorland Vo Tech. "I like to teach my trade to the future mechanics of the world."

Mr. Jeff Beitzel

Mr. Beitzel has been teaching carpentry classes for one year. "Building trades vocation has always been a satisfying field to have a career in. When I had the opportunity to enter the public school system, carpentry was my first choice."

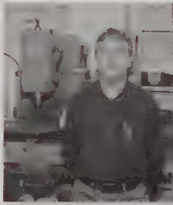
Mr. Scott Stough

Mr. Stough has been teaching for twenty-three years, but nineteen years at Northern. He teaches "Tech Ed, Mechanical Drafting 1 and 2, Architectual Drafting 1 and 2 and Auto CAD."



Mr. Jared Roth

Mr. Roth has been teaching machine tool for two years. " I worked in the manufacturing industry for eleven years. This is the course that I am most qualified to teach."



Mr. Larry Deal

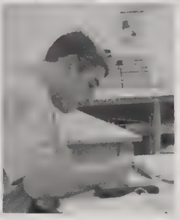
Mr. Deal has been teaching agriculture for thirty-one years. Mr. Deal went into this field "because of two teachers that I had during my high school years. "

Ben Margroff sits in drafting drawing out his plans. Ben states that he chose drafting because "it is a fun and useful trade."

Hard at work on a building in carpentry class is Cody Kamp. He sates "I like dealing with wood and my friends are in [the class]."

Working on his project for masonry is David Smearman. David says "It's better than the other classes."

Wes Spiker goes to the greenhouse to water plants. "It gives me a chance to relax from my real classes," says Wes of his agricultural class.



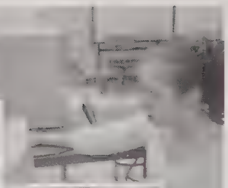
John Maxim is sitting in drafting class working on his layouts. "I am planning to go into the field of engineering; drafting is widely used in this field" says John.

Travis Kamp is taking wheel off. Travis says [his favorite part of auto is] "working on vehicles." Travis is one of many who enjoys working on cars.

Top Left: Codey Linn is in Machine Tool getting ready to weld. He states " I took this machine tool(class) to learn how to weld and run machines.In this class you weld and turn metal into things you do by welding." Welding is a skill that can be useful in many different careers.

2

Justin Georg is taking time from class notes to water plants. Justin says he likes "going to the greenhouse ecause we don't have to write notes." 2. Masonry students Jeremiah Wilt and Keith Sines work on their ojects. Keith says he likes masonry because " I like to do brick work." 3. Bruce Dirden is working in achine Tool. "[I]took it for a new experience that I could [use]on milling machines,metal latches and a ariety of the other machines," states Bruce. 4. Kenny Wilburn is working on a project in electronics. Kenny ıys "Building new cars out of old ones: it's a different experience." 5. Travis Beiler has auto time to wash s car. He states "I like to work on stuff because you can learn new stuff to get better."

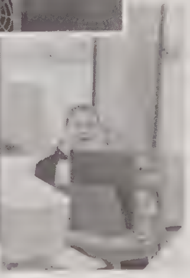


Jennifer Hoover is actively participating in keyboarding class "Keyboarding is a fun class. Mr Willaman is a good, fun teacher," says Jennifer

Elizabeth Cummings carefully decorates her file box. "I enjoy learning new ways to teach children but in fun ways. I also love learning how to make different snacks "

Shayla Rodeheaver enjoys working in class. "What I enjoy about keyboarding is being with my friends," says Shayla

Andrea Maust pays close attenion during class. What Andrea enjoys most about business class is "that we get to use the computers every now and then. and Ms. Nice let's us use notes on some tests," says Andrea



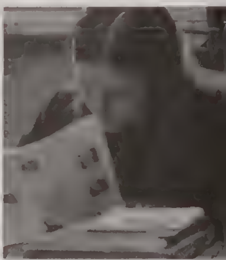
Danita Paugh finishes an assignment in keyboarding class "What I like about keyboarding is you get to talk to and sit with your friends while you're doing your work." says Danita

TIME FOR A SNACK

Brittany Georg feeds Amanda Anderson while she was blind folded. "The thing I most enjoyed about Allied Health class would be that there is only six of us in the class," says Brittany. Amanda Anderson sees what its like to actually be blind.

IS IT REALLY WORTH IT?

Heather Deem is wearing the empathy belly. "I liked getting the experience of what it would be like to be pregnant without me actually being pregnant." This class teaches students to interact with children, but also, through the empathy belly, epathize with parents as well.



GETTING THE WORK DONE

1. Crystal Fazenbaker works quietly in computer class. According to Crystal, "I like to do things with computers." 2. Tosha Ault reads her small business management book. "What I enjoy most about small business management is learning new things about the law in a creative way," says Tosha. 3. Amy Hall refers to her text book to improve the skills she's learning in Technical Education class. "It's fun and exciting because I always learn new things," says Amy. 4. Adam Logan tries complete his work in Technical Education class. "I enjoy working with all the communication tools and learning the history of it all at the same time," says Adam. 5. Zach Beitzel is working hard to complete his assignment for Mr. Lewis's Computer class.

Voices *from the* Classroom

Mr. Eric Perfetti

Mr. Perfetti teaches the Technical Educational class. "It is a constantly changing field; I enjoy learning new things and working with my students." Mr. Perfetti has been teaching for twenty-seven years.

Mr. Rich Lewis

Mr. Lewis teaches the computer classes. " I enjoy teaching because I like working with kids. I like knowing that I had a hand in on shaping the leaders of tomorrow. And of course summers off." He has been teaching for two years.

Mr. Dan Willaman

Mr. Willaman teaches the keyboarding classes. "Teaching keyboarding gives me the opportunity to continue to learn." He has been teaching for eight years.

Mrs. Donetta Nice

Mrs. Nice teaches the business classes. "Every year brings new challenges. In business, technology changes daily so I am constantly learning new things."

Mrs. Elsie Slagle

Mrs. Slagle teaches the allied health class. "In teaching, everyday is new. Students and teachers make the day. There is never a dull day or a dull year." She has been teaching for twenty years.

Mrs. Barb Law

Mrs. Law teaches the child care classes. "What I enjoy about teaching is being with children, seeing their minds grow, and watching them mature into responsible young adults." She has been teaching for 18 years.

Careers

Peering into the Future

Who wouldn't want to peer into a crystal ball to discover what the future holds? Unfortunately no one can predict his/her future; however, every student can plan and prepare. Vocational classes help students discover what their crystal ball could reveal.

As an overview of possibilities Technical Education class allows students to experiment with skills that help them in whatever career they may choose. Whether they must problem solve to create a bridge out of toothpicks or build a stool to withstand a certain amount of weight, this required class builds a foundation.

Every student will encounter the useful, yet sometimes infuriating machine..the computer. From keyboarding to programming, to desk top publishing, students learn how to cope with and even master the computer skills neccesary in the business world.

For students with an entrepreneurial spirit, an empahasis in business education is offered. Sarah Masters enjoys her class because it "is small and we learn things that are actually going to help me in the future."

Providing a helping hand to others is the force behind Allied Health and Child Care classes. Stephanie Foutz chose Allied Health because "I've always wanted to be involved in the medical field." While some prefer to work in hospitals and nursing homes, others wish to help children. To prepare for placements, Child Care students plan activities for children. They create a box filled with ideas that can be used in their career. According to Amber Redmond, the best part of the box "was wrapping it; it was hard but worth it."

Vocational classes assist students in discovering their chosen pathway and creating a crystal clear picture of a future career.

HERE IT COMES...

Jennifer LaMastus feeds Stephanie Foutz while she is blind folded. "I've always wanted to be involved with the medical field," said Stephanie. The class completed this activity because it prepared them to work with the disabled.

Voices

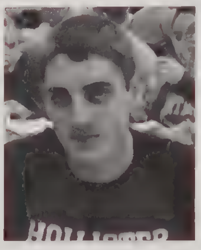
2

3

Heidi Hare

"I love distance learning because it [allows] more [freedom]. We only have the class every other day, so we have enough time to do the little homework given in college."



Nick Maxim

The AP classes I am taking "are more challenging than normal classes, and they help me prepare for college."

Preston Sisler

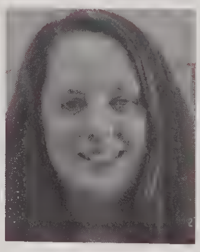
"I chose" to take distance learning "because classes were half price, and it would be an easy way to get college credit while going to high school at the same time."

Megan Shaffer

"I thought" doing School-To-Careers "would help me when I was thinking about a career in elementary education. I am glad I did it though because I realized it was not for me!"

Brittany Georg

Allied Health "is helping me prepare for my future because I would like to go into the medical field, and it is helping me explore what area I am going into."



Tracy Bowman

AP "classes are more challenging because we have to work at a faster pace than normal to cover all the material that will be on the AP test."

LOOKING AHEAD
Senior Stephanie Foutz listens intently to her English instructor in the Distance Learning Lab. Stephanie says, "I chose Distance Learning because I thought it would help me out in the transition from high school to college."

IN THE LAB
Seniors Laura Costa and Shaina Custer work on a lab in their AP Biology class. Shaina says, "I think if a person wanted a challenging course I would recommend AP Biology. Not only does it take a lot of in-class time but also a lot of out-of-school studying."

Seniority

Advantages and Privileges

Special classes prepare seniors for the future

Everyone knows that seniors get special treatment. This is true even when it comes to picking classes to take their senior year. Seniors have options such as taking Advanced Placement (which is offered to underclassmen but taken mostly by seniors), School-to-Careers, PIVOT, Distance Learning, ITECH, Allied Health, and ECAP.

Seniors have many different options to fill their schedule. Advanced Placement classes are college level classes given by a teacher from the school. At the end of the year, students are given an AP test, and if they pass, they receive three college credits. When taking the School-to-Careers, another option, a student volunteers for an internship where he/she goes to a place of work that supports the student's pathway. Students may also take courses in our Distance Learning lab, taught by Garrett College professors through a television screen. They receive college credits for taking these courses. In order to take Distance Learning courses, students must pass placement tests to be accepted. ITECH (Information Technology) helps students with their computer skills. It is taught at Garrett College. They receive two high school credits and twelve college credits. When asked how ITECH is different from regular high school classes Brian Uphold replied, "It's a college class. The curriculum is more intense, and the instructor treats you differently. You are expected to think on your own and not be "spoon-fed"." The PIVOT programs help students get experience in their desired career. There are three courses: Hospitality/Tourism/Customer Service, Banking/Finance/Customer Service, and Marine Technology/Customer Service. Students receive one college credit and a certificate when they complete the class. These classes also include a work-based internship. Yet another choice, ECAP (Early College Admission Program) allows students to take their last year of high school and their first year of college at the same time. Students must apply to a college and be accepted as well as meet other requirements to be accepted into ECAP. They receive college credits and finish their last year of high school simultaneously. Students attend the actual college, not the high school. When asked how ECAP may benefit a student, Tiffany Yoder replied, "I am now a year ahead of everyone else in my class, and I will be graduating high school as a sophomore in college."

Seniors have many options to help them with their future. Whether it is taking college classes or doing internships, seniors are looking towards the new lives they are about to begin.

By Brittany Milbourne

PIVOT has "taught me patience with grouchy people and [has given] me an opportunity to have a job in that field."

SONYA BROADWATER
12

What was the most defining moment of your sport's season? /How has sports changed your life?

Heather Deem,11
Volleyball
"[The best moment was]senior night when we beat Bishop Walsh."

Baylee Selders,10
Tennis
"[Sports have made]my attitude toward life fair and sportsman-like along with making me happier and energetic."

Taylor Jones,11
Wrestling
"[Sports]makes me realize how life doesn't always work out or go my way."

RUNNING TOWARD VICTORY

Corey Carr goes for a touchdown with Brock Glotfelty close behind. Both helped make the football team's sucessful season a reality. Brock's advice on winning: "Be the hammer not the nail."

STAR KICKER

For Brittany Milbourne, soccer is everything. She gives it her all and this picture can prove it. She says, "I love the adrenaline I get when I step on the field. Soccer is my life. I enjoy every aspect of the game."

PUTTING THE 'PEP' IN BAND

Adam Logan and Andrew Wilburn are just two of the people who played with the band at the basketball games. Andrew said,"Playing at the games was a lot of fun, and I enjoyed the music, especially the 'Final Countdown' song; it sounded the best."

HEAD TO HEAD

Lakin Weimer,shown here saving the ball, says,"I love everything about volleyball: the coaches, the bus rides, the practices, but probably what made it the most fun this year were the girls I got to play with. We all got along very well and had a blast with everything we did."

GOING FOR THE PASS

Jessica Fratz looks for an open teammate to throw the ball to. She says,"I like being part of the team, playing in the games...I basically like everything about basketball." Her favorite part of this year's basketball season: beating Fort Hill for the first time.

A Changing Attitude

Through the blood, the sweat, and the tears, Husky students have faced competition head on. There is no denying that when it comes down to it, the face of extra curriculars has changed. Angie Umbel, a volleyball player, admitted "The attitude got more serious." From new directors to new coaches and from new facilities to new supporters, we are proving that this change has only made us more determined. Paul Logan stated,"I feel that the basketball team has more to prove this year and with the D.P.G. supporting us I feel very confident to win." Senior, Michael Wolf commented,"I want to win and do my best, whether we are the underdogs or not." We are stronger than ever before and are proving everyday that there has never been a prouder time to be a Husky.

By Jamie Haydel

Victory

The Winning Season

What sport is the most aggressive in the fall season? Football. Despite being aggressive,the football team has many goals that they want to accomplish. Most of the varisty players feel that being aggressive in the sport is a good thing because that's what makes the team.

The varsity football players have a wide variety of opinions about why they play football. " Because I enjoy being part of the team," states Jared Beachy.

On the other hand, junior varsity players say that their favorite things to do are making sacks and being on offense and defense.

But one JV player, Dustin Platter, says his favorite part of football is sportsmanship. "I like sportsmanship because it teaches all the athletes proper characteristics."

Most of the junior varisty agree with Jessie Storey. He states that he would change "nothing because it is fine."

Despite the individuals opinions about the whole game, they all come together and make up the team. Eleven Varisty members returned with four sophomores But according to Coach Carr "defensivley, we are still trying to find players to fill shoes, and our size and strength shows us some concern."

By Rachel Schmidt

GETTING AWAY
Eric Johnson breaks through the opposing defensive line. "My favorite part is the opening kickoff. I am so nervous but yet so excited to start the game."

TOUCHDOWN
Michael Wolf proves that hardwork pays off by gaining significant yardage. Michael says "My favorite part of the season are the games because all the hard work during the week pays off."

Eric Johnson comments " I chose to play football because I love the contact and the competition involved."

Team Chemistry

The First Step Towards Victory

Every sports team needs support, friendship, encouragement, and the ability to work together. The girls' soccer team has all that and more. There are thirty girls on the team this year. With this many girls one has to wonder: how is the team chemistry? Sophomore Bethani Gillum said, "I think our team chemistry is awesome. Every team member seems to get along...we're all like sisters." One of the hardest things about playing high school soccer is the transition from club teams to high school soccer. When asked what the biggest difference was, Freshman Sarah Voelkel replied, "I have always been one of the oldest on my team. I never realized how much younger athletes look up to you. Now, I have older classmates to look up to."

But with making this team comes a lot of hard work, willpower, and fun! Freshman Brittany Stein stated, "...even though we work hard, our team has so much fun together. There is always a lot of laughs."

By Brittany Milbourne

RACING AGAINST RIVALRY-
Amy Shaffer pushes the ball past a Southern opponent to give her team another scoring opportunity. Amy says, "I like playing soccer for the high school because it is competitive and fun at the same time. Also, I get to play with my friends."

SLIDING INTO ACTION-
Brittany Stein slides in for the tackle in order to steal the ball from the opposing team. Brittany said, "This year I had two positions. I played left forward and loved it because I am left footed and love to score. The other position I had was on the bench when I got hurt. I didn't like that one much at all, but I cheered for my team the whole time."

Left to Right- First Row: Susan Thatcher, Stephanie apiro. Second Row: Alyson McKenzie, Ashton Graham, van Yoder, Kasandra Broadwater, Danielle Fousek. Third w: Abby Sherrard, Amy Lander, Ainsley Railey, Nina Loos, son Yoder, Tessa Beitzel, and Coach Lynn Lais.

Defender Victoria Moser attempts to steal the ball. Victoria says, "The most exciting thing about being a defender is knowing that I am one of the last people to try to stop the opposing team from scoring."

Moving On

Injured But Still Kickin'

With a new player from Chile and many injured players, the boys' soccer team was able to benefit from its hard work and indescribable teamwork. "We've had to adapt a lot this year because we had a lot of injuries, but it made us into a better team," said Michael Moyer, a senior, varsity player on the team. The injured players this year included Aaron Rawe, Chris Fickes, and Scott Pusateri. And on top of that, one of the team's strong senior starters, Preston Sisler, was unable to play due to a torn ACL and MCL. But even with all of the injured players, the team still managed to pull through and win the majority of their games.

When asked what made the team different, Chris Fickes stated that "The team this year is composed of more talented, veteran players that know how to play and made our team the best we've ever had." Max Beitzel said, " We have great passing skills and know and understand each other's weaknesses." Clearly, the players on the team do know the meaning of teamwork and use it both while practicing and playing on the field.

The majority of the players on the team thought that Beall High School was their biggest competition for this year. But Brian Schlosnagle said that "The biggest competition we face is ourselves because if we don't stay focused we will have great setbacks."

With this type of thinking in mind, it's no wonder they won the majority of their games. Many of the underclassmen players are looking forward to playing again next year and hope to have yet another great season.

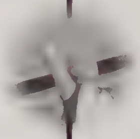
Aaron Rawe said that the best part of this year's season was "setting the school win record."

JESSICA HARVEY 10
"My usual pregame ritual is that I have to pee before every game."

JAYME MILLER 12
"Before each game we huddle, clap, talk about what we need to do to win the game and sometime we say a little prayer."



KERI BACHTEL 11
"Volleyball is my favorite sport because it is less aggresive then basketball, but more physical then tennis"

ANGIE UMBEL 11
"This year our team's biggest strength was our defense."

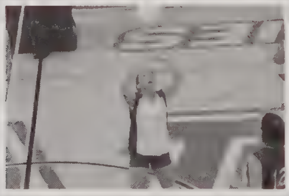
DANIELLE BRENNEMAN 9
"The toughest part about volleyball is keeping concentration and making good passes."

EMILY SISLER 10
"Volleyball is fun beacuse I love playing with my friends."

CARLY CHASE 11
"Volleyball is a really funsport to play, and I like everyone on the team."

Players in Action

1. Jessica Fratz bumps the ball desperately hoping for a good pass. Jessica said her favorite thing about volleyball is "getting to play three game at each match." Because volleyball games are so long, conditioning is fundamental. 2. At a Ft. Hill game Emily Sisler spikes the ball. "Hitting the ball makes you feel powerful," she said. Wit a good hit it can be impossible for the other team to return the ball. 3. Jackie Rodeheaver makes a successful pass t the setter. Passing can be the toughest part of volleyball.4. Emily Rosser struggles to receive the ball. As a freshman she "saw her and the team make a lot of improvement". 5. Jayme Miller knows that in volleyball you have to give it all you have, which she demonstrates by diving to receive a serve.



Nicole Kovach is one of the varsity team's starting setters. "I like being a setter because without sets no one can spike." Setters are one of the most important players on the court.

Tougher Than It Looks

More Than Just Bump, Set, Spike

You always hear people say "volleyball is so easy. All there is to it is bump, set, and spike." The truth is, volleyball is a rough and tough sport. "Most people don't realize how much hard work volleyball actually is. It takes a lot of conditioning to be prepared to play five games," said Jackie Rodeheaver.

Fans may think volleyball looks easy, but it takes skill and concentration. All of the skill seen on the court comes from hours of practice each day after school.

Volleyball can be a really enjoyable sport too. Angie Umbel said "Our practices can be tough but we always have a lot of fun." With six players in such a small area everyone has to work together and get along. Tara Devine said " Each of us would agree that through the season we become one big family." Volleyball is 100 teamwork and dedication. This year the team discovered that these two skills are what it takes to win.

By Keri Bachtel

GOTTA BLOCK IT
Jessica Fratz and Keri Bachtel go up for the block while Angie Umbel watches with eagerness. Jess said "I love volleyball because it takes so much concentration." Blocking the ball makes the game easier for the rest of the team.

A PATRIOTIC MOMENT
The varsity team stands respectfully while the national anthem is being sung. This season players Esther Schmuck and Amanda Anderson sang the anthem. EstHer said "At first I was nervous, but I got used to having an audience.'

Swinging for Success

An "Ace" of a Team

"Golf is a game that is played on a five inch course, the distance between your ears"stated famous golfer, Bobby Jones. All sports require team unification. Whether each person is depended upon to do a specific job or each individual is responsible for their own actions, there is no "I" in team. In golf, each member is part of a team but also has the pressure of carrying their own weight.

Just as any other NHS athletes, the golf team members have one thing in common: considering Southern as their biggest rival. Whether it is because they're the school's traditional rival school, or because "we just don't like their school," said Mike Bergstrom. That is one common denominator of the team.

Members are involved in challenging matches, but overcoming the obstacles can be very rewarding. For Eric Shields "getting a big party at the end of the year" is the most rewarding aspect, while Korey Gibson says "the most rewarding thing about golf is traveling and visiting new places." Many memories are made through high school sports, as wins are recorded when the team is up to par.

By Bethani Gillum

Caught in Action!

1.Assistant Coach Bergstrom observes his talented golf team. 2.Eric Shields demonstrates alignment as he addresses the ball. " I chose to play golf... because my friends played. Now I live for it," said Eric. 3.Mike Bergstrom uses his axis to swing for an ace! 4.Taylor Cabe demonstrates concentrated attention as he strategizes his next putt.

2. Persistance pays off! John Thorpe grips his club after he finishes his shot. Birdie, Bogey, or Ace?
3. Score! At the end of a match one thing determines the winner:score. Andrew Joslin watches a fellow player's shot as he reaches in his pocket for a pencil to record points.
4. Striding into first! Mike Bergstrom glances onward to critique his shot.

Heading for Victory

Ben Margroff

The most rewarding aspect of playing golf for NHS is "knowing that my golf game has improved a lot thanks to the coaches and the other players."

David Vagnetti

The most rewarding aspect of playing golf for NHS is "shooting a good round of golf."

Zak Brosnihan

Being a freshman on Northern's golf team is "fun...I enjoy traveling with the upper classmen to the away matches."

Intensity

Boys' Basketball Cranks Up the Heat

Basketball is an intense, fast paced, high-pressured game. It is spent hustling up and down the court in a gymnasium with the fans cheering in the stands. Playing this game takes hard work and preparation. The boys' basketball team spends many long hours training for basketball season. Perhaps one of the most difficult things about playing the game is the constant day-in, day-out training. Sophomore Lucas McMillan says, "The most challenging thing about basketball is practicing everyday after school and in the summer...you can't pick up a basketball after not playing in a month and be good." However, when asked about the same subject, Junior Brent Beachy replied, "There is no single thing in basketball that is challenging. It is all aspects of the game put together while striving for perfection at the same time. Basketball is every bit mental as it is physical."

After training comes the games. Schools compete against each other for the number one title. Althought Southern is Northern's biggest rival, many of the JV boys felt that Allegany was their toughest competition. Senior Matt Bass, when asked who he thought was the toughest competition , replied, "Ourselves. We can beat any team around when we are on. We just need to be consistent." The boys' basketball team is a group of hard-working and talented individuals willing to do whatever it takes to win and have a successful season.

By Brittany Milbourne

DRIVE!-
Senior Aaron Rawe drives the ball past a Southern opponent to get a shot for his team. When asked if it is hard to keep his intensity day-in and day-out of the season, Aaron responded, "No, Coach is intense, so the team gets to feed off of his energy."

Photo courtesy of The Republican

WHITE BOYS CAN JUMP-
Freshman Kory Gibson gets some air as he goes up for the shot to score yet another basket for his team. Kory says, "This basketball season is different for me because I am on varsity. I am playing with all new players, and I have a new, more intense, coach."

Photo courtesy of The Republican

Senior Chris Fickes shoots a lay-up while an opposing player attempts to stop him from making the shot. Chris says, "It is hard," to keep your intensity day-in and day-out, "because your expected to give 100% every night. You get tired and beat up some nights, and the next day it is very difficult to keep giving 100%."

Team Effort

Giving What it Takes to be Stars

Frequently heard is the phrase "star player"; but is there really such a thing? This season the girls' basketball team discovered that there isn't. With five seniors, the team had all the experience they needed, and Coach Dave Yoder was all set with his five starters. Yet, there was plenty of room for the four juniors on the team to prevail.

When asked "Who was the star player on the team this year?" Senior Lakin Weimer responded, "I think that everyone is a "star player" because without the rest of the team, not much can be accomplished." Each team member could tell you that every player is just as important as the next.

The team also has an extensive amount of respect for each other's talents, which allows each player to shine. Kayla Kipp said "We are more like sisters than a team." This season it could be said that the Lady Huskies had not a "star player", but a "star team."

By Keri Bachtel

AND SHE SHOOTS . . .
Jayme Miller goes in for a lay-up hoping for the best. She definitely enjoys the rougher part of basketball. Jayme said, "My favorite part is rebounding and knocking people over."

GIVING IT ALL
Senior Amanda Heacock is new to the varsity team this year. She believes that in order for the team to have a more sucessful season team members should "always give 110%, not 50% or 100%." This goes along with the saying "the more you give, the more you get."

1. Michael Wolfe overpowers his opponent as he strives for a takedown and a spot in the proceeding round at Regionals.
2. Brock Glotfelty demonstrates skill as he maneuvers a take down.
3. Corey Kamp forces his competitor to the mat to gain a victory over his Westmar rival.
4. Robert Stark shoots for the takedown as he locks arms with his opponent for additional control and support.

4

Wrestling Fever

The Few, The Proud...The Wrestlers

Fierce, confident, and intimidating are the Northern Garrett wrestlers as they prepare to dominate their opponents when they take it to the mat.In order to achieve victory, each wrestler must put forth 110% during each match... No guts no glory. Confidence and discipline are the keys to success, along with drive and commitment.

Desire and persistance are also fundamental components to a rewarding season; afterall, practice makes perfect. Sacrifices are unreservedly made in order to achieve greatness."Some days you might have to go without eating, and you lose a lot of weekends due to tournaments," said Michael Wolf. Practices are used to build strong endurance and increase agility, both of which play a significant role in the physical condition of a wrestler in the third period stretch.

Though teammates can be very helpful, coaches can make all the difference. "I look up to our assistant coach because he works as hard as every wrestler in the room and has helped to make me a lot better of a wrestler," said Casey Kamp. In the end all of the hard work pays off. Wrestling is different than any other sport," because it is an individual sport, but you're in competition with a team," said Jay Clark. Brock Glotfelty agrees saying,"if you lose it's your fault, not anyone elses." When a wrestler is on the mat, it's one on one, no physical help from teammates and no turning back.

WE KNOW WHO'S BEST... N-H-S!

Spirits Soar in Support of Successful Seasons

CHLOE BAUERMASTER 12
"The thing that I'm going to miss the most is competition. Unfortunately, we didn't get to go to nationals this year, but for most of the girls, we gave it our all, and managed to have a blast at states."

JANINE BEACHY 12
"I will miss spending time with the girls and going to competition. I love all of them and most of them tried to make my senior year great!"

ABBI SISLER 12
"What I will miss the most about cheerleading are my coaches, Lisa and Larah. They were my friends and coaches at the same time. I love them."

LAURA COSTA 12
"I will miss my cheer coaches because they not only led us to multiple trophies..., but became our good friends as well. I will also miss my best friend and teammate Abbi Sisler."

N-H-S! If there's ever a need for school spirit, these cheerleaders have it. In order to be sucessful, every cheerleader must work hard. Andi Miller says "The most important aspect of a cheerleader is flexibility. Not with your body, but with your time." Unlike volleyball, basketball, soccer, and softball, which lasts one season, cheerleading lasts up to three seasons. Practices start in the summer before school and end with the basketball season.

In order for cheerleading practices to be successful, it takes patience and team dedication. Cheerleading is very different from other sports because you can't just substitute a team member for every task. It is very hard to go from a base position to a flyer position. If a teammate unfortunately gets hurt, or someone doesn't show up for practice, the routine can't be completed with just a few adjustments. It takes changing if this happens, and sometimes the team members must start over and learn everything from scratch. This can be very frustrating at times.

This year there was a total of seven freshmen. That meant that there was more teaching and learning. The experienced girls teach the new, and the new learn from the experienced. There is a big difference between middle school and high school cheerleading. The material is more difficult, there is more responsibility, and getting to know new people can be a struggle. This is a problem that most freshmen face when coming into a new environment with older and more experienced individuals.

Most of the practices are dedicated to one important event... competition. Months of long, hard practices added up to a fun-filled day at the Holiday Inn at College Park, Maryland this year. The team placed fifth out of eight total teams and was disappointed but managed to shrug it off and make lasting memories. The team came home with their heads held high, the motivation to do better, and looking foward to the upcoming years. Ariana Wilt says "I'm looking foward to the new cheerleaders, and going back to competition...I will miss Chloe and Janine. They were good leaders and good friends."

By Chloe Bauermaster

NORTHERN HIGH VARSITY CHEER TEAM

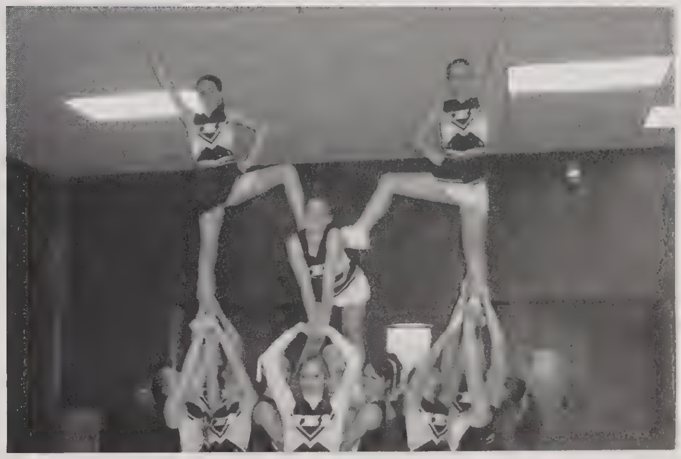
Shown from left to right: (Back row) Tamra Beiler, Caitlin Carr, Shayla Rodeheaver, Katie Kelly, Stephanie Law (Middle row) Ariana Wilt, Megan Margroff, Mandi Fazenbaker, Andrea Miller, Angela Nunez, Ashley Kinzey (Front row) Captain Chloe Bauermaster, Co-captain Janine Beachy
Not shown in picture: Coaches Lisa Carr, Larah Savage, Co-captain Laura Costa

STANDING PROUD

Along with supporting the teams, the cheerleaders stand as one in supporting their nation during the national anthem with the anticipation of a good game and performance. "The national anthem represents team spirit among the squad and crowd," stated Angela Nunez.

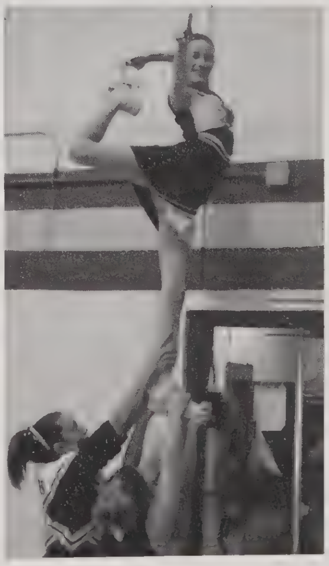
SKY HIGH
Demonstrating her balance, Ariana Wilt performs a heel stretch. The girls on the squad agree that stunting is the hardest part of cheerleading. Janine Beachy supports this stunt as a base. "The toughest part about cheerleading is...long competition practices because that's when we stunt the most," stated Janine.

MAKING FISH FACES
Cheerleading has much to do with expression. Whether it's showing off smiles or giving a little attitude, Megan Margroff and Shayla Rodeheaver know how to express themselves. Megan says "What I enjoy most about cheerleading is being with friends and having a good time..."



W-I-N... WIN HUSKIES WIN
Through rain or snow, the cheerleaders are at the games showing their support for their team. Ariana Wilt says in order to have a successful year "It helps when you're cheering for good, winning teams."

TRY THIS ONE ON FOR SIZE
Stephanie Law displays a scorpion stunt. To others it may seem pretty scary, but Stephanie and her bases make it look so easy. "The toughest part of being a base is bringing the four of us (in a stunt) together to work as one," stated Shayla Rodeheaver.



CATCH ME IF I FALL
When you're a flyer, it takes guts in order to rely on your team members. When you're ten feet in the air and have nothing to grab onto, you think you're going to fall or lose your balance. Trust is one very important aspect of cheerleading when it comes to stunts and pyramids. You must be able to rely on your bases to catch you so that you don't slam into the floor. Stephanie Law, a flyer, says "I trust my teammates. I have to rely on them to keep me safe. Without trust, our stunts wouldn't be possible."

Fly Ball

Students fly to a successful season

Baseball, America's favorite pastime is a popular school. The team has 30 players between the Varisty and Junior Varsity team, and each one has his/her own reasons for playing. Cory Stout states "I played baseball because it's my favorite sport." Most of the players can agree that they play the sport because it is one of their favorite things to do.

As on any team, the players have their likes and dislikes about the game. [The only thing I dislike about baseball] is "running poles," says Trevor Butler. Some players like to do the same thing on the teams like hitting that ball and fielding.

Players get interested in sports because of one thing or another. They each have their own playing style as well as their own reasons for playing. Matt Bass states "[he got interested in playing baseball from] watching the pros when I was little."others have said they played because their dads played when they were little.

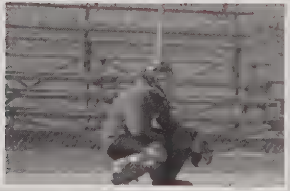
Some students have their own ideas about who is the most valuable player. " We don't have a MVP. We are a team." says Preston Sisler. Some players have chosen who they think the best players on the team

By Rachel Schmidt

Captions by Alyson McKenzie

HE'S SAFE!
Darrick Lowdermilk slides into base illustrating that extra effort sometimes means more than just using your head. "I like [playing] because I'm good at it and it's fun."

A VIEW FROM THE MOUND
Corey Carr eyes his opponent getting ready to pitch. Corey states " I have played it [baseball] since I was 7, and I enjoy being on a team "



BEHIND THE SCENES
Catching, although frequently overlooked, is an important part of any baseball game. Without an attentive catcher, throwing a player out at home would be impossible.

A GRAND ENTRANCE
Scott Bass walks to his position, leaving some of his teammates to cheer from the dugout. The benches in the dugout provide more than a seat. They are a place for team members to enjoy comradere and support one another.

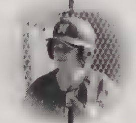
HOLLY WAMPLER 11
"The whole team is like a big family, and we have so much fun together."

KAYLA KIPP 11
"I am never nervous. I have faith in my team members to do their best. I am always excited though. It's the love of the game."

EMILY SISLER 09
"I love playing softball because it's fun and I get along really well with my teammates."

SARAH MASTERS 12
"[I will miss] Jayme, Dani, and my last year. I won't be able to kick Southern's butt again after this year."

DANI GLOTFELTY 12
"The most exciting thing about being on the team is how we all come together to work as a team."



HELAINA LAMASTUS 11
"I enjoy how competitive it can be, but how the players on different teams can still be friends."

2

Girls in Action

1. Kayla Kipp, the catcher, watches the field. "The most exciting thing is a close game. My favorite game was the one against Salisbury because everyone did well, we won, and I hit my first two homeruns in softball ever."
2. Leah Frazee waits while a fellow teammate goes up to bat. I get "excited because you never know what's going to happen."
3. Kasie Fratz anticipates the pitch as she gets ready to bat. "I sort of get a little nervous before I bat everytime, especially when it's against a fast pitcher."
4. "I play third base, catcher, and pitcher," said Brittany Stein. "My favorite position is pitching because I like the 'one-on-one' with yourself and the batter."
5. Angie Lamastus, who plays first base, said, I get "excited because I want to win and to try my best."

6

"Southern is our biggest rival, but Beall takes the most effort to play," said Danielle Fousek, a freshman on the team.

Field of Dreams

Players Enjoy a Firm Foundation

Our school isn't the only thing that got a makeover recently. The softball field got a much needed makeover of its own. The field wasn't in very good condition before this year. It contained rocks, dips, and bumps, which made it difficult on which to play, as well as dangerous for playing. The players are happy that the field was redone and is now in better condition than it was before.

The team has had its share of ups and downs this year. They've won games and lost games, but the most important thing is that they're closer than ever. "It doesn't matter if we lose, we still have a good attitude in the end," said Danielle Fousek Krista Burns agreed by saying, "I enjoy being on a team that no matter how much we lose, we always try to keep our spirits up."

This season "was the most fun because I was a senior but also the saddest because it was my last year," said Jayme Miller. Sarah Masters, Danielle Glotfelty, and Jayme make up the seniors on this year's team. When asked what she would miss about softball, Danielle Glotfelty said, "I am going to miss the bus rides home with all of the girls. We always have very interesting conversations."

By Ashley Ross

WATCHING THE FIELD
Esther Schmuck watches her team on the field while she gets ready to bat. Her favorite game was on "May 10, 2005 against Southern. We lost but had a great game, and I had a great hit."

PITCHING FOR A WIN
Emily Sisler winds up the ball in a game against a rival team. My favorite game was "the Westmar home game The score was really close and everyone played a good game."

READY FOR RIVALRY
Each team poses unique challenges, although some are more memorable than others. As Krista Burns said, "I think our biggest competition is Beall They're extremely good... When it comes to rivals, as always, it's Southern..."

Going the Distance

Following the Track

Running, for many people, is a physical exertion; they don't have the willpower for it, but for the select few who do, there's track. Not only do students on the track teams participate in running events from the 100 meter dashes to the 2 mile, they also jump hurdles, compete in the high jump, or throw discus and shot put. In other words, this is not a sport for the weak.

Christy Stahl says,"Track has taught me the meaning of 'no pain, no gain.' If you want to improve, you just have to face the obstacles head on and give it all you've got."

The coaches have allowed their players to reach their full potential by pushing them all the way. This year the track teams have ran through snow and rain just to reach those potentials.

Though the extreme weather conditions aren't much differnet from past years, the number of members has practically doubled, and the girl's team is experiencing a new coach: Mr. Dyche. Knowing how important individual performance is to the team, he has tried to help each person by assigning individual workouts.

Dana Hannibal says,"We are working really hard this year and are concentrating on improving, but my favorite part is just getting to know everyone." All of this rigorous training has led the track teams to a sucessful season.

By Christy Stahl and Jamie Haydel

PERSONAL BEST
Adam Rounds prepares to through his personal best at discus. The boys track team has proved equally impressive. Adam Rounds says things have become more challenging,especially "competing against people that were double my size."

JUST A LITTLE FARTHER
As a runner, Emily Rosser must push herself beyond what she perceives as her limits. Track allows athletes to excel as an indivdual. Emily enjoys track because "the struggle is more personal than if it was shared by a team."

JUMP HIGH AND TOUCH THE SKY
Besides what classes to take, students must also decide what sports they would like to do. Stephanie Law says, "[I chose track because] I have bad coordination and can't play softball or tennis."

I THINK I CAN, I THINK I CAN
Emily Rosser tells us what she thinks about while running: "Sometimes I play my favorite songs over and over in my head to keep my mind off the daunting distance ahead."

Elliot Glofelty 10
I like everything about tennis except "practicing."

Keri Bachtel 11
"I love tennis because you get to be outside in the sun ... or snow."

ERIK WOOD 11
My favorite thing about tennis is "watching Gonzolo's outbursts in Spanish."

AMY LANDER 9
I play tennis because "I enjoy having my skills improve."

DARRYL GLOFELTY 10
"What I like about tennis is we don't have to condition or run."

ERIN BRENNEMAN 10
The best thing about tennis is "Keri's and my secret handshake; it's so awesome."

Players in Action

1.Taylor Jones throws the ball up, hoping for a good serve. Taylor enjoys "making fun of Eric, as well as the rest of the team." 2. Rebecca Stark goes for the ball with a strong backhand. She said the tennis team was " crazy. Everyone laughs and has a good time, which makes us very sucessful " 3.Lucas Mazer tries out his ground stroke. "Our entire team was friends this year." It's important for a team to get along in order to be successful at any sport. 4. Gonzolo Velasquez was a new member on the team this year, although he had past expierence in the sport. Gonzolo said he liked tennis "because I only have to depend on myself." Tennis is different than other sports because of this. 5.Lakin Weimer takes a step back to get a good position for an on-coming ball. Lakin's favorite part of this season was simply, "chillin' with my homegirls and hangin' with my peeps on and off the court." Being her senior year, this season was exceptionally fun.

NOTHING BUT NET
Amy Brenneman gives her all trying to get the ball to go over the net. "I like tennis because I'm really good, and we all have fun together." Having fun is essential for a sucessful season.

Ace

No Double-Faults Here

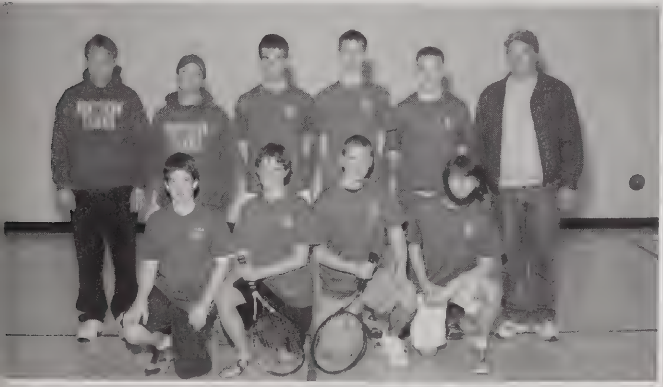
This year neither the girls nor the boys tennis team had a bad season. The girls took the WMIL title for the third year running, while the boys showed much improvment from the past. All of this achievement came from extensive amounts of hard work. Off the court spectators may think tennis looks like a simple sport, but each of the players Would say something different. Johanna Winter explains "tennis this year was a lot more work than I expected." Each part of the game whether its serving, receiving, backhanding, or volleying takes skill. Zach Trautwein said,"I'm on the tennis team just because I like to play tennis."

Being part of the team is more then just playing for the same school. "All of the girls are constantly laughing and having fun together," said Erica Maust. Being around the same people each day helps the team members form bonds that others may not expirence. Both the boys' and the girls' teams would agree that even if thy suffered a loss it was still a blast because optimum amount of effot was put into it.

By Keri Bachtel

A FULL SWING
Michael Moyer follows through on an overhead smash. "Tennis is great because it improves my agility and coordination." Some of the skills learned in tennis are handy for other sports.

A TOUGH BACKHAND
With all her power, Jessica Fratz backhands the ball. "I work all year long to perfect my tennis skills," says Jessica. With a lot of determination a player can be very successful.



RONT ROW: Chris Fickes and Abe Folmsbee BACK ROW: oach Lander, Mike Moyer, Erik Wood, Taylor Jones, Tim iotfelty and Coach Kenny

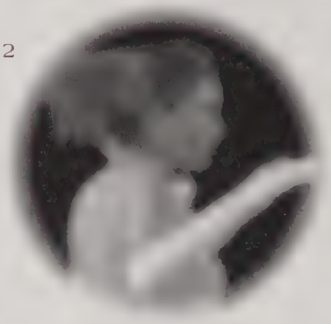
RELAXATION
Chris Wood prepares for a game of tennis. Chris likes being on the tennis team because " practices are more relaxed than for other sports." Sometimes a player can do better if they are relaxed rather then stressed.

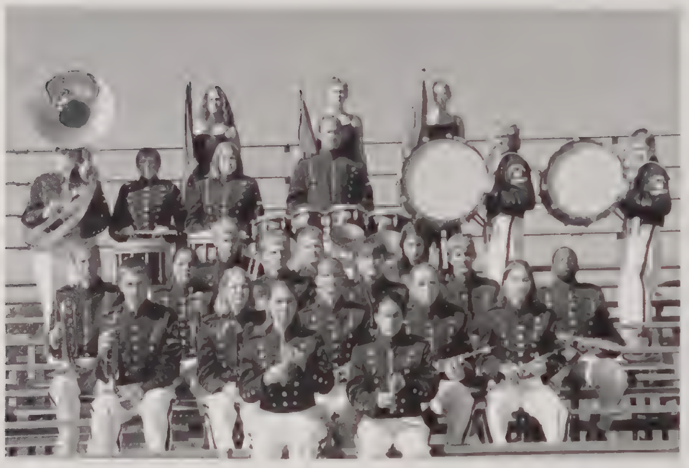
ONE, TWO, THREE, FOUR

Adam Hannibal plays his trumpet while executing the marching patterns learned for this year's field show. "I like being with my friends. Also playing the new music I'm getting." states Adam.

BLAKELY GLOTFELTY 12



"Being the drum major requires a lot more patience. You can't goof off all the time; you have to get the band to respect you, and you get to wear a pretty costume."



First Row: Dana Hannibal and Christie Stahl Second Row: Adam Hannibal, Keena Yommer, Devon Harmon, Baylee Selders, Jamie Haydel Third Row: Kenny Wilburn, Shayna Kitchen, Elliot Glotfelty, Brooks Dubose, Andrew Wilburn, Adam Logan Fourth Row: Darryl Glotfelty, Scott Bass, Hannah Hare Fifth Row: Tara Brennamen, Chris Miller, Holly Wampler, Robbie Bowman, John Moon, Chris Spiker Sixth Row: Sami Jo Frazee, Caitlin Sussman, Jessie Friend

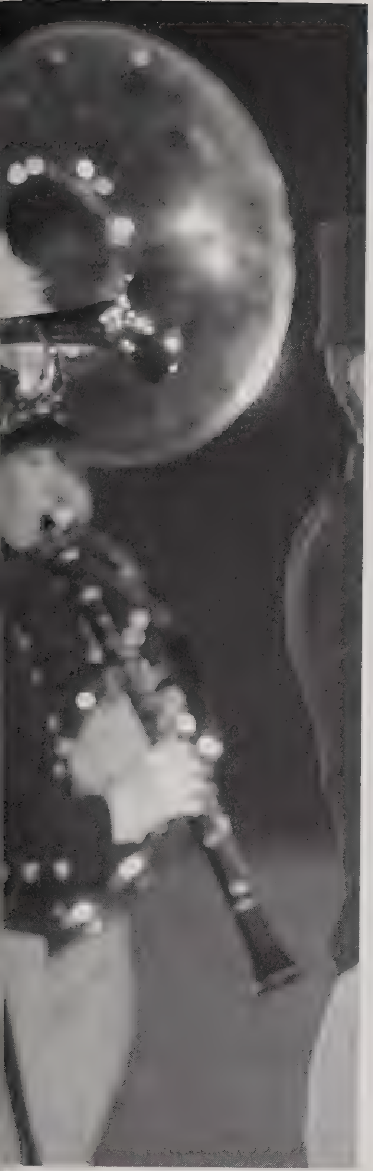
THE BEAT GOES ON

"Drums are very important. They keep the beat, and they keep the tempo of the music. They are like the backbone of the band," says Chris Spiker. Chris plays on the drumline and helps to keep the beat alive.

STEP TO THE RHYTHM

John Moon and the rest of the percussionists help the band by setting the rhythm. "Drums are the heart of the band," says John "without the beat, the band can't live."

All instruments are an integral part of the band, but when they are played together, they blend to create music that can capture the heart.



Determination and Dedication

Spirit Still Strong

Challenged by many and conquered by few, Northern Garrett High Band is under new instruction. After Mr. Robinson transfered to NMS, Mr. Kenyon became the new band instructor. "Mr. Kenyon is a good band director. He brought new styles and ideas to the band," says Kenna Yommer.

With a new band instructor, the band placed second in the marching spectaculars of September 25, 2004 at Northern and at Alleghany. Andrea Maust exclaims "I think we're doing a lot better than everyone thought we would."

The skill and the spirit of the band are not any different than the famous sports of football, basketball, soccer and volleyball. The band members say it takes skill, talent, time and practice to compete and win. All of these elements necessary to being competitive while on the court or on the field. "I like band because you get to learn so much from it." says Shayna Kitchen. The Band practices almost three hours a day, almost every week day. Plus they travel around the state for competitions. Maybe that's why our band is one of the top bands in Maryland.

By: Jackie Smetzer

DANA HANNIBAL 11

"The most challenging part of band is playing and marching at the same time."

DARRYL GLOTFELTY 11

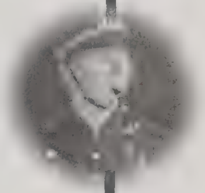
"The most challenging part of band is memorizing the music and all of the steps."

SAMI JO FRAZEE 11

The most challenging part of band is "learning the new ways of the new band director and having a guard instructor quit in the middle of the season."

DEVON HARMAN 12

"The most challenging part of band is memorizing all of the music and being able to play it on the field."



SPINNING, TOSSING, CATCHING

Spinning and tossing flags and all those dance moves takes practice practice practice. Just ask Caitlin Sussman. "I wanted to be in band, but I could not play an Instrument." says Caitlin. Guard allows students who are not musically inclined to participate in band.

LITTLE BOY BLUE

It takes a lot of practice and a lot of breath to play a wind instrument. Adam Hannibal and Kenny Wilburn know exactly what it takes, and they enjoy it. "It's fun to perform in front of people and see them appreciate your work." says Kenny.

IT'S A BIRD, IT'S A PLANE, IT'S A LETTERMAN

Eric Diehl seems to make the perfect superman on super hero day. Eric said "dressing up was more fun than I expected it to be." Most lettermen enjoy dressing up an entire week for initation

PLAY BALL

Matthew Bass, Brian Schlosnagle, Eric Diehl, Taylor Jones, and Trevor Butler are all lined up and ready for a rough game of basketball. Proceeds from the game, which was between the lettermen and various teachers, were given to the House of Hope

1.REBECCA STARK is decorating her D.P.G. shirt during Mr. Edward's class "I decorated my shirt to make it unique and to stand out." The "gang" lit up the stands with glowing-gold at every game. 2.ADAM HANNIBALsure looks super on superhero day.He said his favorite day to dress up was "Friday because I like to look good." Friday was the only normal day all week. 3 ANGIE UMBEL seems to be a little embarassed on "Prom Dress Day" Angie said "Wacky day was my favorite because I could be totally crazy and not have to care what anyone thought." 4.NICOLE KOVACH makes her initation worthwhile on wacky day. "I love acting crazy, so this just gave me a good excuse." Initiation is routine for many clubs and sports.5.JAYME MILLER and JESECA GIBSON enjoy spending time together at a boys' basketball game Both are members of the DPG. Jeseca joined the DPG to "support my little brother and my friends who play basketball."

Meeting Challenges

Student Council

Pictured from left to right: Keri Bachtel, Lakin Weimer, Zach Cupler, Trevor Butler, Neil Buckel, Adam Rounds, Becky Berkebile, Emily Sisler, Danielle Brenneman, Leah Biser, Chloe Bauermaster, Tara Brenneman, Megan Shaffer, Brian Williams, Zach Trautwein, Ashton Graham and Stephanie Law

Honor Society

Front Row: Lacie Bittinger, Keena Yommer, Becky Berkebil Heidi Hare Second Row: Nick Payne, Tracy Bowman, Eric Maust, Scott Pusateri

Envirothon

Left to Right: Margaret Mastej, Mike McKewen, Sam Sherrard, Angel Giron

Mock Trail

Front Row: Jordan Smith, Alyson McKenzie, Susan Thatche Abby Sherrard, Ashley Rounds, Lacie Bittinger, Emily Sisle Second Row: Katie Kelly, Andi Miller, Johanna Winter, Bria Schlosnagle, Tara Devine, Nicole Espanda, Caitlin Carr, an Megan Margroff

ALL SMILES
Lakin Weimer does her part for the blood drive which was sponsored by Student Council. Lakin said,"I decided to be in student council in high school because I was a member in middle school; I loved it and wanted to continue with the program."

MEMBERS HAVING FUN
Student Council members (left to right) Blakely Glotfelty, Brian Williams, Laura Costa, Jessica Harvey, Stephanie Law, Mrs. Harman, and Zach Trautwein attended a student council state convention in Ocean City.

HELLO THERE
Michael McKewen participates in an Envirothon activity. Michael says, "The fact that I get to learn about the environment and at the same time travel to new places and meet new people makes Envirothon enjoyable

WILLING TO HELP
Honor Society member Keena Yommer helps out in the adopt a highway program. Keena says,"I enjoy having fun with my friends while doing activities with the National Honor Society."

ON TRIAL
Lacie Bittinger along with other mock trial members Angie Nunez and Erica Maust prepare for their match. Lacie said,"Mock trial is a lot of fun, and it has helped me be able to speak in front of people with a lot more confidence."

STAYING CALM
Ashley Boylan and Nicole Espada happily wait for their trial. Nicole said what she enjoys the most about mock trial is "the practices because we can goof off and still get things done."

ANIMAL INTERACTIONS
Margaret Mastej interacts with an owl as an activity for Envirothon. Margaret says she enjoys envirothon because "[she loves] being outside in nature, and the trees are so cool."

Why did you choose to become involved?

"I wanted to be in student council so I could voice my opinions and try to make the school a more tolerable place."

Tara Brenneman
10

Angel chose envirothon because "I think it's cool to be able to identify the plants and animals around you."

Angel Giron
10

"I chose to be in National Honor Society because of the reputation and respect its members are given as students."

Scott Pusateri
12

"I like the competition [of Mock Trial] and being given the chance to argue with evidence to support my opinion."

Alyson Mckenzie
10

Helping Others Help Themselves

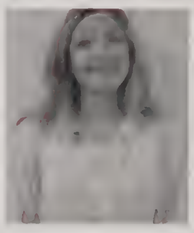
Peer Mediators

What is more simple than solving your own problems, right? Wrong! Sometimes solving our own problems is impossible because we refuse to see the opposite side of things, but at NHS students have Kara Bowser, Jackie Smetzer, Shayna Kitchen, Amanda Hoover, Lyzz Cummings, Mariel Vallao, Courtney Bowman, Heather Groom, Rachel Schmidt, Jennifer Lamastus, and Bridgette Welch to help them solve their problems without gossiping about them.

Peer Counselors

Have you ever just wanted to talk to someone who ca understand but who isn't an adult? Well, when you go to th peer counselors, Shayna Kitchen and Jackie Smetzer, you'v found the right people. These girls work hard to help other and make them feel better without all the lecturing, an everything is as confidential as it is when speaking with teacher or guidence counselor.

What is your favorite part of your organization?



I get to help people solve their problems, and in return, this sometimes helps me work out mine

Bridgette Welch
11

I enjoy being able to learn about farming and agriculture in school because that is what I am interested in

Becky Berkebile
11

My favorite part about peer counseling is getting to help out fellow classmates.

Shayna Kitchen
11

I like working with my hands, and last year I won a $1000 scholarship for third place.

Mark Thomas
12

Looking to Our Future

VICA

Back Row: Andy Folk, Cody Linn, Bruce Dirdin, Kevin Jones, Michael Bender, Mr. Roth Front Row: Lindsay Phillips, Heather Deem, Steven House, Justin Lowdermilk, and Rick Mosser These students are all part of V.I.C.A. Much like FFA, students in V.I.C.A. go to compititons and give speeches.

FFA

Back Row: Dan Miller, Scott Fike, Travis Kamp, Richar Warmick, Randall Frantz, Bridgette Welch Front Row: Brando Garlitz, Dustin Sisler, Becky Berkebile,and Randi Rodheave These students are members of Future Farmers of America one of the largest youth organizations in the United States.

All Around

Organizations:
Working Together to Accomplish Goals

BREAKING THE ICE
Icebreakers are a must with a group of 250 people at the peer mediator conference. Heather Groom, Lyzz Cummings, and Amanda Hoover pay attention as people tell about their most unusual experiences

ATTENTION, PLEASE
An important element of peer counseling is training which was held at Uno's this year for both peer counselors and peer mediators. Senior, Jackie Smetzer shared her experiences with the group.

ALL DRESSED UP
Prom and homecoming aren't the only opportunities for students to dress up and spend an evening dancing. Becky Berkebile and Tabitha Beitzel, FFA members, enjoy the fruits of their labors as they spend time at the dance they helped orchestrate.

READY, SET, GO
Getting ready to weld, Travis Kamp knows there are a lot of safety procedures to follow. Travis says that the project they build are "for fun."

ALL WORK, NO PLAY
Becky Berkebile and Travis Camp dance the night away after their hard work. Fun always follows work in every organization

WORKING HARD
Brandon Garlitz and Dustin Sisler work hard on their FFA project to get it ready for competition. Brandon says he enjoys "welding" the most.

SOAKING UP THE SUN
Courtney Bowman, Jackie Smetzer, Lyzz Cummings, Heather Groom, and Amanda Hoover take a group shot to remember the Peer Mediator Conference held in Ocean City

AND THE WINNERS ARE
Bridgette Welch and Becky Berkebile pause for a moment to enjoy the excitement of competition. Having an opportunity to demonstrate skill is always a fulfilling experience, especially when you win

PROMOTING HEALTHY LIVING
The Garrett County Health Department sponsors STEAM. The Health Department helps guide the student volunteers in the efforts to control and reduce tobacco use; when ideas are presented to the Health Department, they provide funding and support to make the ideas happen.

The Ties That Bind

United in a symbiotic relationship, school and community rely heavily on each other to function. As the school prepares the youth of the community to become productive members of society, the community provides support in various and numerous ways. Whether this support comes in the form of precious time or the ever-present monetary contribution, community and school could not find success without mutual support. Efforts provided by businesses and community members have allowed Northern Garrett High School to transform into the school of tomorrow.

HAND IN HAND
The Wisp Resort supports the school in numerous ways. Not only is the resort a prime location for prom, but it also allows students the opportunity to obtain service learning hours by providing the perfect locale for the blind skiers program. On a regular basis, ski passes are even provided to the student body as incentives for work done well.

TEAM EFFORT
Football is a time-consuming sport with a lot of equipment. Greg Carr volunteered to haul all of the equipment to the away games while Robin Carr volunteered many hours to run and organize the concession stand.

BROTHERS
CONSTRUCTION
MHIC 42723
MASTER PLUMBER

SOUND OFF
One greatly needed improvement to NHS came from the hard work and determination of the boys' basketball team. For years, the sound system in the main gymnasium has been less than adequate. Railey Realty contributed greatly to this project by generously donating $4,000.00.

HONOR
In memory of Mrs. Donna Carr, Duane Stein and Stein Brothers Construction donated their time to construct the Donna Carr Memorial Concession Stand at the baseball field.

How do businesses, community people and staff members support school organizations?

Elk Ridge NatureWorks

ENVIROTHON

Volunteer coaches, Ron Boyer and Liz McDowell, helped the Envirothon team practice for the county and state competitions. They also assisted by [illegible] professionals in [illegible] team.

ATHLETIC BOOSTERS

Every year at the Garrett County Fair, Mrs. Umbel is up with the roosters to greet the early morning customers.

ROBOTICS

The six members of the Garrett Coalition from Northern include junior Erik Wood (driver/designer), freshman build team members Chris Wood, Zac Trautwein, Zak Brosnihan, Justin Beitzel (engineer), and freshman programmer Mitch Hall. Team leader is Mr. Chuck Trautwein.

The international organization FIRST (For Inspiration Recognition Science and Technology) is comprised of 989 teams and 25,000 students worldwide. Eleven students from Garrett County competed with their robot, Meshach, in Annapolis where they placed 29th out of 55 teams and were one of the top three rookie teams. The robot costs between $8,000 and $10,000 to build. The team is supported by Garrett Container Systems, Mettiki Coal, Financial Computer Services, First United Bank of Oakland, PrimeVest, Southern High School Alumni Association, Rodeheaver and Associates, Hobby House Press, Wisp Mountain Resort, F&M Bank, Cintas Corporation, Garrett Information Enterprise Center, Garrett County Office of Economic Development and the Garrett County Board of Education.

"CELEBRATE GOOD TIMES, COME ON!"

Let the Dresses and Tuxes be Changed And the Games Begin!

Keri Bachtel

Summer Sines

Some people think getting dressed up is half the fun of prom, but this junior would probably argue that decorating is. Here, Summer puts ornaments on a tree.

Frosty the Snowman

This after prom decoration added to the atmosphere of the party, reminding the guests how the memories made on that night are frozen in time.

Angela Umbel

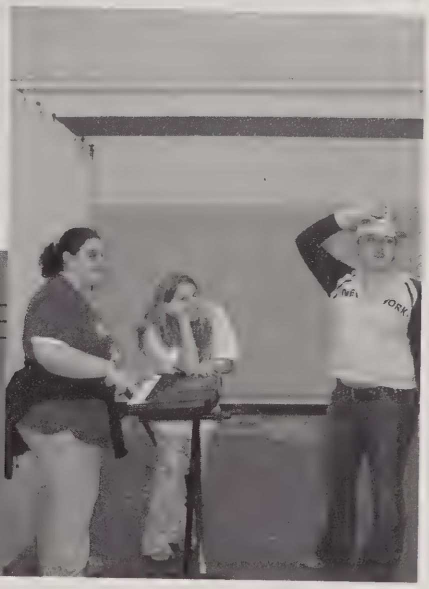
Angie is just one person who enjoyed the games at after prom. She said, "Crawling through the tunnel was lots of fun but very painful...I got floor burns!

A Floor of Friends

Spending time with friends is what makes events like this so memorable. Keri Bachtel, Jessica Fratz, Ashley Rounds, Angie Umbel, Lacie Bittinger and Amy Shaffer share the experience.

David Vagnetti

Posing for the camera, Dave seems to be shielding his identity behind the bars of the dunking booth.

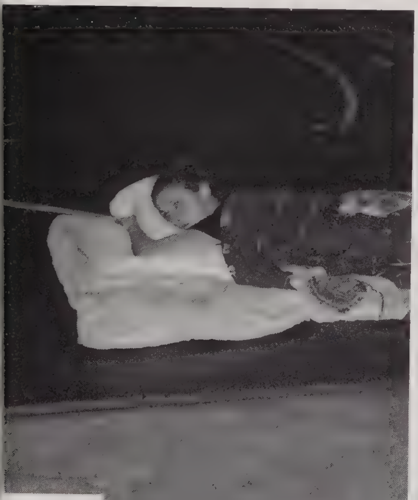


Brianna Raczkowski, Jessica Viragh & Lyzz Cummings

Students not only played games, but they also played instruments. Lyzz displays her musical talents as Jessica and Brianna join in.

Jessica Bowman

Club in hand, ball on the tee... okay ladies and gentlemen, Jessie is ready to putt the ball. And she does it again; this girl's got precision to a tee– another hole in one.



Tiffany Yoder

The hair, the nails, the dress, the date— so many things to do, so little time. But, Tiffany did find some time to catch a little shut eye at the post prom.

Brianna Raczkowski, Kayla Kipp & Billy Woods

Brianna, Kayla, & Billy, a few of many after-prom attendees, enjoyed playing a game of poker after a grand celebration at the Wisp.

Ben Wagner

At after prom there was a bungee game that involved being strapped and running against a person to see who could get to the velcro first. Ben is shown here strutting his skills in this game of speed and agility.

Electric Car

This 1987 SAAB 9000 had all the gasoline parts removed and replaced by electric running parts. It was part of the EV Challenge that has been introducing students and the communities to the importance of enviornmental, energy, and economic issues associated with alternative transportion fuels.

Five groups of vocational class worked on the project. The business students keep account of the monies and parts. Computer technolog classes created and maintained the website. Electronics, machine tool, and the automotive students all worked on the design and actual production of the parts.

Pictured above: Bruce Dirden loads the battery pack into the back of the car after the seats were removed.

Chess Club

The chess club celebrated its second year. Under the direction of Mr. Shawn Nicklin, thirty plus students enjoy playing chess on Wednesdays after school. Although not all students could make it every Wednesday, those who were there enjoyed improving their chess skills by playing the traditional form of the game and honed new skills by learning Battle Chess. Battle Chess allows four players to "battle it out" on an x-shaped board containing four separate armies colored gold, silver, black and white.

These self-proclaimed "chess-nuts" know how to have fun by doing much more than just playing chess. According to Mr. Nicklin, "We are planning to enjoy paintball, dinner and a movie, and bowling activities next year." The club has not only expanded its activities but also its membership from seven original players to about thirty.

Although in-school opportunites are limited for this group, they have still found a way to get together.

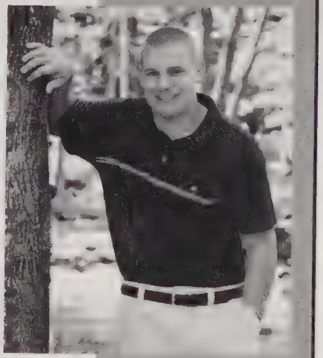
Even as a small boy your Grandpap had an intuition that you would one day play this sport. Although he is not with us, he has watched you from above and has seen you play your best. Congratulations on such a successful 2004 season.

You have grown into a young man that we can all be proud of. We love and wish you much success in all that you do in the future.

Love,
Dad, Mom & Beth



Youth Groups

Many students participate in youth groups. They give students an oppurtunity to express themselves spiritually. Youth groups also provides an activity, which for many keeps them away from drugs and drinking. "Youth group is fun because you can be with friends without worrying about peer pressure to drink or do drugs and such," said Dustin Brenneman.

"My youth group is important because we understand each other and always have a lot of fun together."

And the Award Goes to...

Many students were awarded individual academic awards at the Academic Pep Rally. The awards were granted to the most improved students or the best students in the classes.

ERIN MCBRIDE

Erin McBride received the award for "Life Skills". This class teaches the basic skills that the students would use in their every day life.

JULIE NIXON

Julie Nixon was awarded the Art Award for being the best Art student in the class. Julie comes from a very artistic family and many students recognize her remarkable talent.

Time To Stand Out

People always say "everyone is good at something." Students who excel in sports are frequently recognized whether it is in the newspaper or on the morning announcements. Many of the students who spend hours studying to perfect their school work and achieve good grades are seldom recognized. The academic pep rally gave teaches a chance to acknowledge students who excel in their classes.

STEAM

Student Tobacco Elimination Among Minors, also known as STEAM, consists of a group of teenagers against the usage of tobacco.

Ashley Rounds commented, "STEAM helps the community by teaching the harmful effects of tobacco to minors." STEAM does a variety of activities such as puppet shows, compliance checks and decorating the display case.

Setting an Example

Mr. Nicklin's classes create ABC children's books as a research project. This year they volunteered to visit local elementary schools to help them create their own children's books.

Let's Have a Parade

Leading the Way

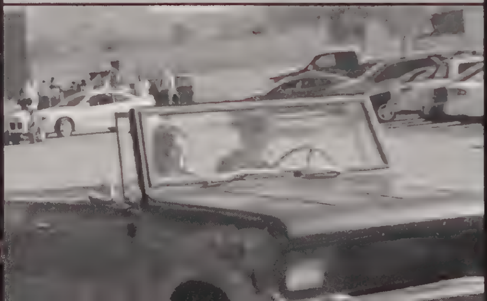
Seniors Lakin Weimer and Jayme Miller decided to make the parade a little more interesting by choosing to ride scooters and wear crazy outfits.

Hot Wheels

Choosing to ride in a motorcyle, Cody Linn, rode through the senior parade in style.

Class of 2005

As the senior parade made its way around the school, seniors waved and said their goodbyes. Pictured below are Michael Wolf and Megan Shaffer.



Goofing Off

Danielle Glotfelty and Nicole Kovach decided to ride scooters through the senior parade.

Go Speedy

Robert Stark made his way through the parade in a different form of transportation than anyone else; he slowly made his way on a lawnmower, even taking time to mow some grass at the middle school.

DRUM ROLL PLEASE
Mrs. Richardson performed several acts in the Variety Show. She recalls: "My personal favorite part of the show was the Patriotic part; I am emtremely patriotic and thankful I live in the U.S.A.... It made me want to cry. It was so well done."

DO A LITTLE DANCE
To dance a clog dance is clogging, and that is just what Ms. Teets did. She replied: "I hope to be clogging for many years, and we are constantly learning new rountines, so I would probably dance again [in a variety show at NHS]."

A New Tradition Begins

Hidden Teacher Talents Unveiled

There is a first time for everything, and this year marked a new tradition in the history of our school– the NHS Staff Variety Show. The show consisted of teachers revealing their hidden talents, such as comic, vocal, or instrumental abilities. It was used as a fundraiser for the sophomore class. Mrs. Richardson commented: "The Variety Show began with the fact that we were sick of selling donuts, pizza, candy bars, etc. So I sent a paper out to see what staff members would take part. It was a great success. I think it is going to be an annual event."

On the other side of the spectrum teachers who did not partake in the event enjoyed the variety show as much as the student spectators. Mrs. Fleming, a teacher who decided not to perform, replied: "I would [participate in future staff variety shows]. Seeing this year's talent show was an inspiration to those of us who weren't as brave." A student from the crowd, Lacie Bittinger, delcared "The teachers are very talented, but you do not get to see that in the classroom." This new addition proves that change can be a good thing and that it allows students to be more open-minded towards teachers.

By Christy Stahl and Ashley Rounds

(1) SHORT LEGS, SQUARE HEADS
Mrs. Grimm participated in the pillow head cheerleaders act with a group of teachers, although a more serious moment was what she remembers the most. "The moments of silence at the end of the patriotic show [was my favorite moment from the variety show]," states Mrs. Grimm

(2) MAN BEHIND THE SHADES
Mr. Lewis, a frequent substitute who performed in the Variety show, states: "Even though I practiced the song 'Since I Met You' over and over, at the moment I was a little nervous. Practice helped me to do it with ease. It was fun, and I enjoyed sharing my God-given talent with everyone. I hope it was an encouragement to those 'at the end of their rope'

(3) "I GOT YOU BABE!"
It takes a lot of courage to perform in front of an audience. "[Mr. Kenyon and I] were not embarrassed– just a little aprehensive as to how the students would react," explained Mrs. Brenneman. The 'Sonny and Cher' performance allowed the audience to appreciate performers from a different era

(4) THE ITALIAN STALLIONS
Mr. Edwards performed a reenactment of 'Eye of the Tiger'with Mr. Berger and Mr. Brenneman. He exclaimed "It was hard to pick out one [favorite moment], but wearing the mullet was cool the first time I've had hair in five years."

Mr. Mark Kirchner

"I loved being an MC with Mrs. VanNess - she just went along with everything I did or said, plus the fact that I like to make people smile and have a little fun once in a while. I love it! If you don't laugh now, it will be too late later."

Mrs. Jean Richardson

Mr. Derek Berger

Ms. Michelle Harman

Mr. Jeff Beitzel

FIDDLE FADDLE
Mrs. Birkby, who accompanied Ms. Slagle, remarks: "I believe the 'NHS Redskins' act was more enjoyable for me because of the involvement with the students (interacting during the performance). Also, it was neat to have Mr. Ables & Ms. Ellis participate by dressing up as Indians and having student help with the act."

'RAISE YOUR HAND IF YOU'RE SURE'
Mr. Brenneman was also part of the show, participating in a variety of acts, from interpretive dancing to humorous skits. As for him taking part in next year's variety show, he replies: "If I have a golden idea by that time I will do it again. I had fun with it and like to see the students laugh."

Photographers

First Row (left to right) Krista Butts, Dana Hanshaw, Maria Petters and Jessica Rounds. Last Row: Danielle Getters, Tameka Sites and Lacie Garlitz. Not pictured is Danielle Fouser and Jessica Lewis.

Business Team

First Row (left to right) Tiffany Murdock, Jordan Smith and Suzette Ketner. Back Row: Brittany Georg, Angie Umbel, Heather Thomas and Lacie Bittinger

TOP 5

Reasons to Join Yearbook

Reason #5:

It's a fun class!

Reason #4:

You get to know more people in the school.

Reason #3:

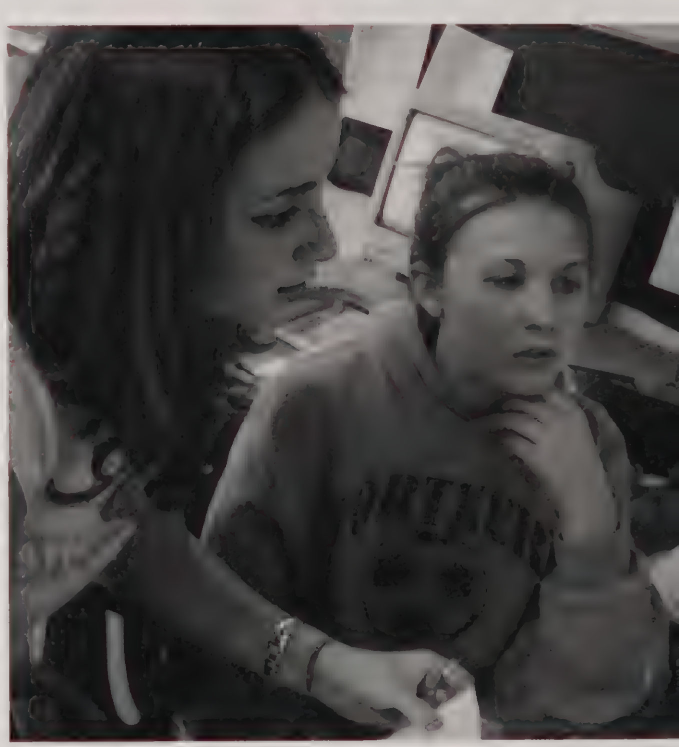
Not your typical class and no lectures!

Reason #2:

Mrs.Lewis and Mrs.Fleming are the BEST teachers.

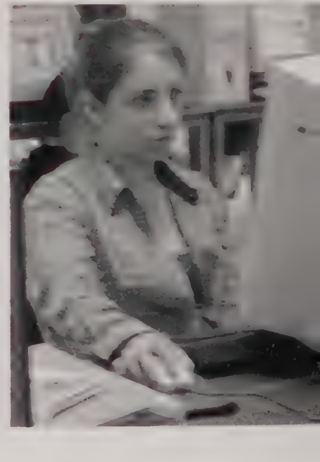
Reason #1:

You get to capture the memories of the school year.



UPLOAD AND PLACE

Photographers Krista Butts and Danielle Fouser work on placing pictures on yearbook layouts. "My favorite part of being a photographer is being able to take pictures and get graded for taking them," said Krista.



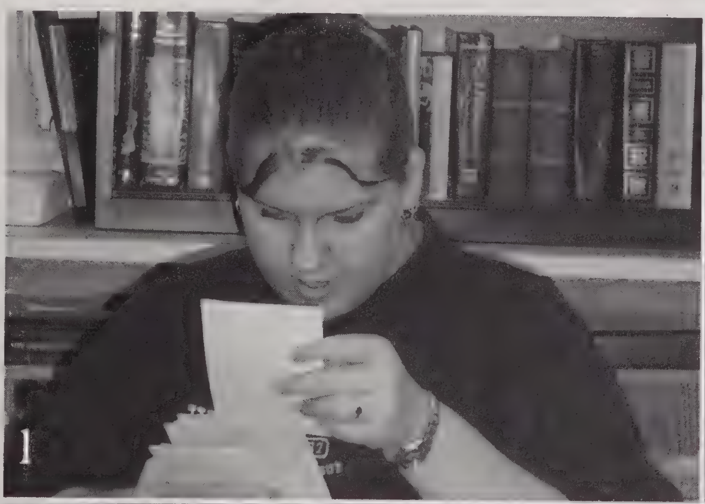
HARD AT WORK

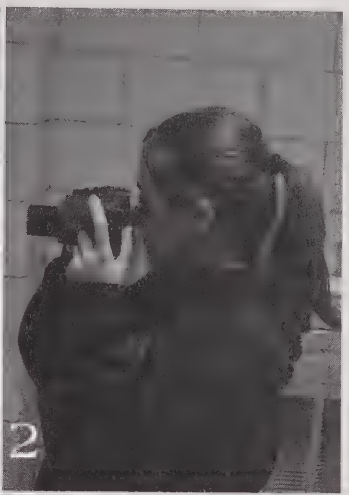
Staff writer Ashley Rounds works hard to complete her layout before the deadline. "My favorite part of yearbook is designing my layout," said Ashley. Deadlines help each writer to stay on track so the yearbook can be produced quickly.

BEHIND THE PAGES

By Jackie Rodeheaver

An Inside Look at Yearbook Production





1. As a photographer, one of Jessica Rounds jobs is to find and place pictures on layouts
2. Photographer Maria Perfetti captures another memory for this year's yearbook. "My favorite part of yearbook is how everyone in the class gets along so well, even though some of us can be loud mouths," said Maria
3. Judging by the smile on staff writer Bethani Gillum's face, being on the yearbook staff is a lot of fun
4. Staff writer Rachel Schmidt works diligently to complete her layout on the computer. Rachel says the hardest part of yearbook is "making deadlines."

5)Dani Glotfelty and business team members Angie Umbel and Suzette Ketner design a poster to promote yearbook sales

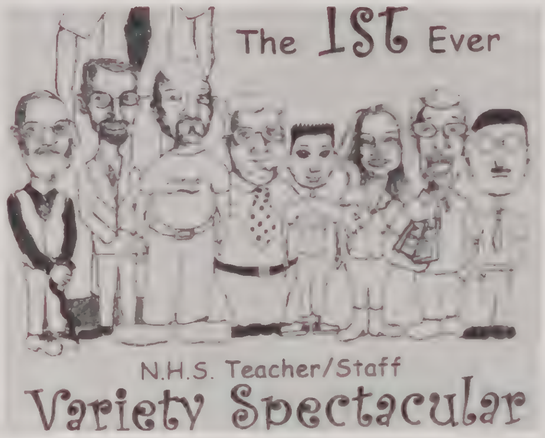
Pictured left to right are Mitch Fost, Ms. Ellis, Danille Fousek, Brock Glotfelty, Krista Burns and Casey Kamp, Danielle Glotfelty, Sarah Shawley, Dom DiRienzio and Mariel Hady.

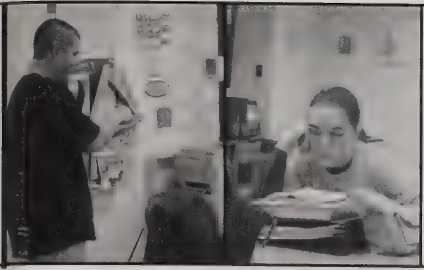
WHO KNEW? Students at N.H.S had no idea that their teachers were full of such talent until this years first teach/staff spectacular. The show was advertised by this poster drawn by Julie Nixon.



SERVES UP! Mrs. Grimm serves the ball during the charity volleyball game. "My favorite part of the game was spending time with the girls outside of the classroom setting," said Mrs. Grimm.

SAME OLD SONG. Filling out agenda books is one thing that has not changed at our school. Cassie Fike says the hardest part of using the agenda book is "always having to fill them out."

DOWN, SET, HUT! Corey Yoder, Brock Glotfelty, and Ben Wagner prepare to take on the the defense of the opposing team. Brock Glotfelty has endured the change of being a sophomore on the varsity football team.



When changes come, remembering
what is important to you means the most

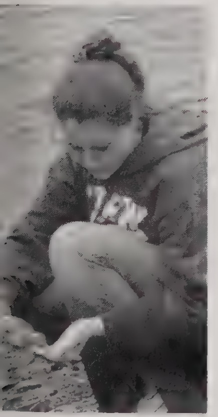
Staying True

by Jackie Rodeheaver

As another year comes to an end we have time to sit and reflect on the memories made throughout the past days. The first day of school in the renovated building, the victorious homecoming game, prom night with that special someone and saying good-bye to the Class of 2005 are just a few. Everyone has experienced changes this year. Whether it be friends, looks or maybe even grades, change is inevitable. But there's one thing that should never change-what holds true in your heart. High school is full of choices and though you may go with the newest fashion trends on the outside, it is important to make sure your morals don't recieve a makeover. Believe in what you know is right, and you will always make good choices. Sticking to your guns is an accomplishment in itself. Not caving to the "in crowd" will help you go far. Life's tough and there are a lot of decisions to be made, but if you are who you have always been ,the decisions will come naturally. Although the actual building of our school has experienced significant changes, the students and staff who fill the hallways and classrooms are still as remarkable as ever.

WET, SENIOR FUN
Seniors Shaina Custer and Tracy Bowman enjoy a day at Hershey Park, in Pennsylvania. Around twenty seniors took part in the senior trip on May 12th.

I DO
Mr. Keel was joined in holy matrimony with his new wife, Kesha Keel in April 2005. Marriage is a huge change but Mr. Keel says that the biggest adjustment is the "I don't have to cook or clean anymore."



SCIENCE IN THE RAIN
Anna Checkes explores nature on a field trip to Savage River Resevoir with Ms. Slagle. The trip was taken by Ms. Slages' students to help rid the resevoir of trash.

How do you stay true to yourself?

"I stay true to myself by being honest, making good decisions as well as speaking my mind and sticking with what I believe in," says Andrea Warnick, sophomore.

"I'm myself no matter what, and I let people know who I am and what I stand for," says Sarah Shawley, sophomore.

"I don't let people influence me, I stick to my beliefs, and I be myself no matter what people think, " says Heather Deem, junior.

"I don't let anybody change my opinion," says Janine Beachy, senior.

True Blue

Consistency in faculty and staff helps NHS to "stay true." Fortunately, the high school does not have a high turnover rate within the faculty. Three such staff members who have shown dedication to providing a consistent, quality education are Mr. Eric Perletti, Mr. Harv Speicher and Mrs. Donetta Nice.
